> Trebling Liberty Loan Quota With \$26,000,000

Delaware bears the distinction of being the only State in the Union to be presented with a Liberty Loan honor flag; containing two stars, and no other State has even one star in its honor flag. Delaware's quota, as assigned by the Third Federal Reserve district, was \$8.561.850, but the State disposed of \$26,000,000 in subscriptions to the third issue of the Liberty Loan—more than three times its quota. Today is the third anniversary of the sinking of the Lustiania. On May 7, 1915, the enormous Cunard liner was plowing through the sea in broad daylight off Old Head of Kinsela, Ireland, when the German submarine U-39, without any attempt at warning, sent two torpedoes into her.

Fifteen minutes later the vessel disappeared, carrying to their death 1216 persons, of whom 107 were Americans and 150 babies and small children.

The submarine made no attempt at rescue.

The Americans killed included many persons of note—Charles Frohman, Alfred G. Vanderbilt, Lindon Bates, Jr., Justus M. Forman, Elbert Hubbard and wife, Captain J. B. Miller, Herbert S. Stone, Dr. F. S. Pearson, Charles Klein and Lothrop Withington.

Twenty-nine Philadelphians lost their lives when the big ship went down. They were: William S. Hodges, Mrs. William S. Hodges, Sterling Hodges, Dean Winston Hodges, Paul Crompton, Alberta Crompton, Catherine Crompton, Harry J. Keser, Mrs.

before she left New York. An advertisement containing a similar warning was inserted in American newspapers by the German Embassy at Washington.

The British Admiralty has been criticized for not protecting the vessel more adequately. Although the Lusitania carried 2000 persons and was worth, with her burden, \$10,000,000, she was steaming at only eighteen knots through the danter zone when attacked.

The Lusitania took on such a great list a few moments after the second torpedo struck that many of her life-toats could not be launched. This increased the loss of life.

Captain W. T. Turner went down on the bridge of his ship, but was picked up alive after swimming four hours.

Mr. Vanderbilt was last seen when he started down a companionway, saying. Let's go down and see if there are any Kddels left.

Mr. Bates also was drowned while searching for children, after he had met ly each of their four little ones.

Mr. Frohman, lame and ill, did not try to escape. He said to a woman who lived to tell it.

# Witten Freihofer's Announcement

In its plan to conserve the nation's wheat supply, the Food Administration has ruled that substitutes or cereals shall be used in making bread.

In the Spirit of Patriotism, the Freihofer bakers are complying absolutely with this ruling, and at the same time exerting every effort to satisfy the discriminating taste with the real Freihofer Quality.

Our laboratory experts, after months of experimental and research work, have succeeded in perfecting a loaf of bread that meets the requirements of wheat conservation, and is highly palatable and nutritious. This perfected loaf is the result of proper blending of materials, and making and baking under the latest scientific methods.

The Food Administration has suggested, for the period of the war, that all bread be named "Victory" bread. Therefore, we are withdrawing from the market our well-known brands -until such time as conditions return to normal. This includes all of Freihofer's famous specialties, such as Butter Krust, Liberty, Shaker and other brands.

This important change will take place
