

OFFICIAL!

THE Third Federal Reserve District—including the city of Philadelphia—"went over the top" on the Third Liberty Loan by the magnificent figure of \$75,000,000.00.

Our total subscriptions amounted to over \$325,000,000.00.

The total number of subscribers will more than double those of the Second Liberty Loan. From results now being tabulated it looks as if the number would greatly exceed 1,000,000 individual subscriptions.

The Liberty Loan Committee desires to publicly state its gratification over this fine showing of the district and to express its deep appreciation and thanks for the very generous donations of newspaper space and cash which made possible its vigorous publicity campaign in Philadelphia, without which the above results would never have been accomplished.

Our grateful thanks are due the following contributors to the Publicity Fund:—

So fine was the spirit of co-operation on all sides, so very effective the work of the Publicity Committee and those associated with it in its work, that a portion of the fund remains in our hands as a "nest-egg" for the publicity requirements of the next Liberty Loan.
