WAR CHEST SHARE FOR BOY SCOUTS

Need Help in Money Because of Great Increase in Activities

DRIVE OPENS NEXT WEEK

The Boy Scouts of America will have A corner in the War Chest. Government war demands, so great that the small membership fee which has heretofore supported the National Council of the organization is no longer sufficient to carry on the work all over space in the chest be set aside for the Scouts.

Four hundred thousand Boy Scouts in the United States, located in every

"HEYDAY" MERRYMAKERS IN CONTROL AT PENN game

Ordinary Consumer Not Hit, But Canning Supply Is Limited MANUFACTURERS CUT

CITY IS PLACED

ON SUGAR RATION

Philadelphia went on sugar rations to-

day This does not bring hardship to the small consumer. It is a measure primarily for the limitation of the sugar used by manufacturers.

But housewives requiring more than five pounds of sugar and needed for canning must sign a sugar certificate at the storer's. Such a card allows them to obtain twenty-five pounds of sugar at one time

In filling out the certificate the condeclare the sugar will and only for home preserving and that sugar will be ordered from any where the excess of the requirements or that purpose. The quantity of sugar n hand must be stated and the amount and in canning and preserving during 17 must be given. Between 50,000 and 75,000 manufac-

turers of foodsuffs in this State who use sugar in their industrica must take out the food administration's rationing certificates or they, will be unable to obtain any sugar. obtain any sugar. The food administration has sent in-

structions to all refiners and wholesalers of sugar not to sell any sugar to manu-facturers who do not produce a sugar certificate. The savern statements must show how much sugar is needed and the quantity used during the previous

"BLOODY FIFTH" DATE SET CITY'S IDLE ACRES Murder Conspiracy Cases to Be **UNDER EMBARGO Tried Week of August 26**

UITURE EMIDAMOUWar Regulations to Relieve
Congestion and Speed
ShipmentsFOODSTUFFSEXCEPTEDTOODSTUFFSEXCEPTEDTried Week of August 26
The Fifth Ward murder election
cases, which were ordered to be tried in
chester County by the Supreme Court on
an application for a change of venue,
will begin at Week Chester the week of
August 26. This was definitely decided
when District Attorney Botan, James
Gay Gordon, Jr., and Joseph Taulane,
Assistant District Attorney, and Wil-
lam Gray met Judge William Butler,
Jr., Judge Hause and District Attorney
Wade.

District Attorney Rotan said that, representing the Commonwealth, he was cager for an early trial and suggested that if next week was possible he was ready to go to trial. In this he was joined by Mr. Gray, who represents the defendants, and others of the Philadelphia party were in a similar frame of mind, but the Chester County judges. after hearing the views of the visiting attorneys, explained that it seemed im-possible to call an extra session of court

in view of the fact that the farmers of Chester County, who in the main compose the venire of jurymen, were needed on their farms and it did not wern right to summon them now. The period decided upon is the usual mid-summer criminal term of court. food stuffs. The regulations govern carload do-mestic freight traffic from all parts of the country to freight stations, team tracks and private sidings in Philadel-phia To keep the transportation lines and

AFTER CLEAN-UP SLACKERS

Krusen's Inspectors Find Evidence of Carelessness

freight when they have excess quanti-

tracks and sidings. The general embarge will carry some

exceptions, among which are perishable foodstuffs, coal, Government freight and freight for railroad use and certain war industries. All other traffic will be industries. All other traffic will be handled only upon special permits cover ing each individual shipment.

dence of Carelessness Scores of clean-un slackers had com-plaints lodged against them today by city inspectors acting under Director Krusen, of the Department of Health and Chart-tles. The complaints were filed with City Solicitor Connelly, who, because of their number, has assigned a special assistant to take charge of the work. The inspection, for which inspectors have been drawn from all the bureaus, and divisions of the denartment headed by Director Krusen, started yesterday moving and will cover the city before connection. The first day's reports show a laxity and carelessness seldom if ever equaled here. During "Clean-up Week" the ani-nouncement was made that stackers who failed to take advantage of the extra force of rubbish collectors and the un-unual efforts made by the city to aid in a spring cleaning would be prose-cuted. This warning. Director Krusen said today, was dileregarded by many with the result that they are now being actered by the court to clean up or pay the hereality for maintalning a numbance. Prompt compliance with the court order to clean up may regult in fines being Ing each individual shipment. The most important part of the new regulations that have been formulated to refleve congestion as well as specula-tion is the provision that the consignee and not the shipper must receive the permit before the freight will be allowed to be shipped. The administration of the embargo is wordd. bandled by a newly organized domestic division of the freight traffic commission for the North Atlantic ports. mpt compliance with th lean up may result in fines being

BECOME PRODUCTIVE Plots Taken for Improvements

Will Be Made to Bring in **Big Revenue**

Perry's

for that

Summer St

According to the records of the reorganized real estate division of the Bureau of City Property, many ploth taken for public but, as yet, undeveloped

improvements, will be made to pay the city handsome revenue this year. These plots range from comparatively small tracts to sections a block in size. Detail figures in reference to this revenue were filed with Director Datesman to-day by Chief Arthur, of the Bureau of City Property, who, with the Director. effected the reorganization

The plot bounded by Tenth, Lombard, Eleventh and Rodman streets, which is eventually to be a modern recreation center, will yield in rentals this year \$7011, which is far above the interest charges on the money to be spent in the development of the plot eventually, and ample to cover all carrying charges of

ample to cover all carrying charges of the property within this site Aside from this, a prefit to the city will be left. The plot at Front. Allen and Hope attects will yield about \$1218. Ground taken over by the city for the opening of Delaware avenue, from Fairmount avenue to Laurel street, will yield \$1.757.52. Ground taken for the open-ing of Kenyon street in the twenty-second ward, on which there are two dwellings, will yield \$454. A similar improvement in Terrace street, Manay-unk, will yield \$204. unk, will yield \$204.

Barney Fitzpatrick is on the "water wagon." thanks to a little Pomeranian dog. Barney today solemnly took the piedge for a year, in Magistrate Harris's office. Here's how it happened. Constable Harvey had occasion to replevin a small Pomeranian dog, which he took to Magistrate Harris's office in a six by ten inch box. Later Barney was taken before the magistrate. The magistrate requested him to sign the piedge.

"But I don't want to stop drinking." "But I don't want to stop drinking." "You'd better." said the "Judge." Just about this time, the box which was on the Magistrate's desk started to move. Barney's eye spied it and he ex-claimed in consternation: "Give me the piedge card, quick." he cried. Barney hastily affixed his signa-ture to the promise to stay sober for a year, and hurried from the office.

AWARD FRANKLIN MEDALS

Thomas C. Mendenhall and Guglielmo Marconi Are Recipients

Thomas Corwin Mendenhall, physicist, Ravenna, Ohio, and Signor Guglielms Marconi, wireless inventor, member of

the Italian Senate, were the recipients

the Italian Senale, were the response of Franklin medals awarded this after-noon at the Franklin Institute. Dr. Walton Clark, of the institute, made the presentation. Because Signor Marconi was unable to come to this country, the Italian Government sent Count V. Macchi de Cellere to receive the medal.

country, the Italian Government sent Count V. Macchi de Cellere to receive the medal. The Franklin medal was founded in 1914, and is awarded only to those workers in physical science or tech-mology whose efforts in the opinion of the institute, have done most to ad-vance a knowledge of physical science or its applications. The award was made to Senator Mar-cond in recognition of his brilliant in-cond in recognition of his brilliant in-condition and successful development of the application of magneto-electric waves to the transmission of kigmals and telegrams, without the use of metallic conductors. The award to Doctor Mendenhall is in recognition of his fruitful labors in physical research, particularly his con-tributions to knowledge of physical con-stants and electrical standards. After the presentations, Doctor Men-denhall made an address on "Some Meteorological Memories," and Count de Cellere slao spoke.
