health hint for smokers - try it

Smoke Girards exclusively for two weeks. Get a box of 25 or 50 from your dealer, in order to be sure of always having a Girard at hand during this period. You'll save some money by it, too. Smoke your usual number of cigars per day-neither more nor less. This is the only fair test.

If you are an average smoker, this test will show you that you'll never need worry about any ill-effects from smoking as long as you stick to Girards. If you have been a smoker of heavy cigars, our prediction is that this test will show a definite benefit to your feelings and your enjoyment.

And una as we miss our guess, you'll keep right on smoking Girards-because a cigar that takes the danger out of smoking, and brings you a full measure of real Havana smoke-joy besides, is a mighty good smoke to stick to, you'll admit. Start in-NOW.
