

WAR CHEST HONOR ROLL

The War Chest Committee takes pleasure in printing this splendid list of "Who's Who in Giving" and will add to it from day to day.

Where the Money Goes
Every dollar of the War Chest Fund will be devoted to war work alone.

The national war board—no matter what name it may be known—of each organization, then decides what amount is necessary, to do the work assigned to it by the Government, and asks the country as a whole for that sum.

Each State and large city is given its proper quota, based upon its population, banking resources, etc. The only function of the War Chest Board is to determine that the quota is assigned to the five counties in proportion to the total of the general or local work of these organizations. It is applied wholly to the war work of these organizations approved by the United States Government.

A number of necessary local relief bodies will require much smaller sums. In the case of such, the amount to be given to each will be appropriated by the War Chest Board after full investigation.

ANNA HELD, ON DEATH'S VERGE, SHOWS REMARKABLE VITALITY

Told Her Disease Is Hopeless, Famous Comedienne Balfies and Sends Cheery Message to Friends—Not Afraid of Death

New York, May 27.—(Special Telegram.)—Anna Held, the famous comedienne, is on her deathbed, but she shows remarkable vitality. She has just received a letter from her friends, and she has written a long and cheery message to them.

She is a queer contrast for men who lived so long in the line, and they like to realize this with lingering satisfaction. The other night I went to a French chateau which, by common consent, was one of the most beautiful places behind the lines.

Country in Perfect Beauty

The country of France is in perfect beauty. The fields are green, the flowers are in bloom, and the people are happy. This is a great contrast to the war that is going on.

JACOB REED'S SONS 1424-1426 CHESTNUT STREET. Closed All Day Memorial Day. For service and quality—judge our clothes on that basis. At the risk of having our sincerity challenged by some people devoid of vision, we continue to advocate conservation in clothes buying. Briefly our contention is—that if the Government needs wool and needs labor, it is the paramount duty of every loyal citizen to help. So the man who overbuys simply to safeguard his future expenditures is hoarding to the detriment of the Government. One "Quality" suit of Reed's, made with Reed's thorough workmanship, will last as long or longer—look as well or better—than two poor suits.
