JUST GOSSIP ABOUT PEOPLE

Main Line Canning Centers to Open This Week-Nancy Wynne Talks of Pennsylvania Navy Relief Work-Miss Kane Talks at Red Cross

THE Canning Centers at Ardmore, Bryn Mawr and Wayne will be opened for work on Thursday. This year the plan is o donate 10 per cent of each day's output to the use of soldiers and sailors, and this surely ought to arouse a good deal of enthusiasm among the families who have boys in the service. The women in charge of the centers are hoping there will be more interest taken in the work this year and that more women will offer their help;

and surely it is a splendid service. Owners of small gardens and all vacant-lot gardeners will be glad to hear about the Market Day that is to be held at the Canning Centers, although only members will have the privilege of selling in these markets. It will be a wonderful opportunity for

them to get rid of surplus fruit and vegetables without waste. Another idea that is thrifty is the redeeming at five cents apiece of all glass-topped jars returned to the centers if they are clean and in perfect condition. The canning work was quite successful last year. But it was only just starting then and it will be much more interesting and businesslike this year, now that everything has been organized and

put into regular working condition. Mrs. Philippus Miller is greatly interested in these canning centers and does a great deal of work. The late Mrs. Charles Penrose was a most active worker last summer.

MIRIAM KANE in her pink-and-white striped nurse's costume talked today at the Independence Square Auxiliary of the American Red Cross at 608 Chestnut street. She came in her pretty uniform and armed with her remarkable posters, and believe me, it was an interesting talk!

THINK I told you of the Orpheus Quartet's plan to sing "In a Persian Garden" on the 25th of June in the Botanical Gardens for the benefit of the Pennsylvania Auxiliary of the Navy Relief Society.

I had not heard much of that society and have asked a few questions about it. It's always so interesting to me to know what the women are doing around about us to help win this war.

I find the Navy Relief Society was incorporated in 1904 and that Admiral Dewey was its president for several years before bis death.

About three months ago the women of the navy colony here met at the navy yard and reorganized the society for relief work in this vicinity.

The principal object and business of the society is to collect funds and provide immediate relief for dependent relatives of officers or enlisted men of the navy and marine corps.

The society is kept informed by the surgeon general of the navy of all deaths that occur. The Navy Department furnishes the address of "next of kin." If the relationship is that of widow, orphan or mother this address is forwarded to the auxiliary of the Navy Relief Society, if one exists in the vicinity, or the family is reached through one of the organized agencies always ready to co-operate with the Navy Relief Society, which is the officially recognized relief organization of the navy.

The investigation is confidential and systematic. Condolence of the society is tactfully extended, financial assistance rendered when necessary or employment secured. In fact, every seffort is made to aid the family to adjust itself to its sad and new condition.

The cases are all reported to a committee at headquarters of the society in Washington and all pensions paid direct to the beneficiaries until such time as the warrisk insurance is available, as that is neces-

one stand in awe of you and you know it! Why, even Mary the maid watched her in silent admiration. Mary had often exclaimed over the wonderful sweaters Sister made and she couldn't ever sce how she did them; but now words failed her, and when words failed Mary, believe me, she must he awed. Sister knitted on and Mary, woefully

neglecting her dusting, stood there contemplating the awful contortions she went, through every once in a while. Once she dropped a stitch and sighed dismally though you know and I know she was really having the time of her life. Finally Mary did burst out sympathetically: "Is it hard, miss?"

"Oh, NO, Mary," quoth Sister, in a bored and indifferent tone. "Of course, it might be for you, since you've never knitted sweaters or anything like that: But I'll teach you how to make socks some time i you'd like to learn," she added magnani mously.

And then-oh, then-THEN came the blow. Sister realized suddenly and all unexpectedly that Mary wasn't awed at all in fact, Mary must have been enjoying it all im-mense-lee, for she answered politely:

"Oh thank you, miss, but it's dozens of pairs of socks I've made. I always used to knit them when I was a little girl."

And poor Sister, feeling muchly like a little girl herself, though she's a few months past seventeen and quite old, you know, made as graceful a retreat as possible, though under the circumstances you can't blame her for banging the door and refusing to give Mary any more hats she didn't want for a while. One doesn't lose one's sense of importance and dignity easily when one is seventeen!

WOMEN GIVE EFFICIENT **AID IN DEFENSE WORK**

MISS CORBENA SCHEUER

Philadelphia Committee of National Council Has All but **Completed Organization**

The Philadelphia women's committee of the Council for National Defense is now an almost completed and perfected organization. It is an organization of great size and breadth of scope in war activities; and one which, organized by women, bears witness to an unsuspected and extraordinary accuracy and perseverance in detailed work.

Eleven departments, covering virtually every branch of women's war work, are united under one head, with one general aim. which is that of making every woman in the country, work for the winning of the

war either actively or passively. These eleven activities are food production, food onservation, home economics, women in in-ustry, child welfare, education, health, dustry, child welfare, education, health, recreation, Liberty Loan, foreign relief and registration

Nearly all of these departments, except the registration, of which Mrs. Louis B. Taylor is director, have moved from the old head-quarters at 1607 Walnut street to the Finance Building.

With every woman in the country pledged through this organization to give her serv-ices to the nation a vast "hidden army" is or-ganized. This does not mean that women must actually give up their business in life and go into active war work. It means sim-ply that every woman pledges that she will follow (downward) follow Government orders in the matter of food conservation and give as much of her time as she can to some sort of service. It may be merely caring for the health and Mafety of her own children

"I feel that the coss are beginning to run pretty smoothly," said Mrs. Louis Taylor, vice chairman of the county committee of the Council for National Defense. "For example, when an comes from Washing ton it can be carried into every house in the

Y. M. C. A. NEEDS REAL WORK

Chance Is Offered to Four Thousand Men Too Old for the to Help Win the War Behind

the Lines

Four thousand recruits are needed for the army of the Y. M. C. A .- 2000 at once, 1600 more in July and another 1000 in August-to carry on the work among the expeditionary forces established by the Association abroad. Edward Bok, chairman of the Pennsylvania war work council of the Y. M. C. A., has issued an appeal for enlistment in this endeavor, and he wants every man too old for the draft who is ready and willing to do his bit to get into action behind the lines.

"How can the middle-aged man see serv-ice in this war and share in the thrill of it?" says Mr. Bok in his appeal. "How can the main who was too young m fight in the Civil War and is too old to fight in the civil War and is too old to fight in the present great conflict get into the game as his father did and as his sons are doing now? There is a pince for him who feels that he belongs to the 'skilped generation,' a place as near the front-line trenches as he cares to go, a place that carries with it one of the greatest oppor-tunities for patriotic service that has ever been presented to a man who is too old to fight. More than 2000 such men are on the western front today; before September 1 this total must be multiplied by three. The national war work council of the Y. M. C. A has accepted the responsibility for the recruiting of 'that other army' with-out which (there are plenty of authorities to quote for proof) the war cannot be won. "Dr. John R. Mott, general secretary of

"Dr. John R. Moit, general secretary of he war work council, recently returned rom the war zone, after seeing the oppor-

tunities along the entire western and south-ern fronts, presented the problems to a con-ference in New York. The result was a call for 2000 men this month, a thousand in July and another thousand in August. The biggest men in the country are wanted for the service which the Y. M. C. A. is doing in the American expeditionary forces with the French and Italian armies men like Herbert 1. Pratt, for instance, Mr. Frait, a vice president of the Standard Off Company, spent six months in France and summed up his experience in these words:

Big Men Serving as Volunteers

There is no job in France too small There is no job in France too small for the biggest man in any American com-munity. No president of a railroad or a bank or a college, no lawyer or minister is too big for the job of taking care of our boys overseas."

"E.H. Cluett, of the Cluett-Peabody Com-pany, has left his business in the care of others, willing to make any sacrifice neces-sary to carry a bit of America and of serv-ice to the boys who are willing to give ice to the boys who are willing to give everything they have to the great cause for which we are fighting. A vice president of the Munsingwear Company, E. J. Couper, has volunteered to do 'Y' work in France: President Matheson, of Georgia School of Technology: William H. Danforth, presi-dent of the Ralston Purha Company, of St. Louis, in Firance for the duration of the war: the Rev. Dr. Ernest M. Stires, rector of St. Thomas's, in Fifth avenue, New York of St. Thomas's, in Fifth avenue, New York city: these are men who have left big jobs for bigger ones. The list might be con-tinued indefinitely and must be if the Y. M. C. A. is to achieve the results sought by the official and military authorities of the

Aim to Make Clean Army

Ailled countries

"General Pershing has determined that his army shall be a clean army, trained to the minute for the tremendous task that is ahead. He relies upon the Y. M. C. A. to train this army in all its activities except the minute set of the tremendous task. the purely military. The Y. M. C. A. in France today is a part of the military machine. The men of America who are not in the fighting forces of that machine must In the lighting forces of that machine must do their bit by enlisting in the work of providing recreation and keeping up the morale of our boys. The state of mind of the fighting man is the greatest influence upon his efficiency as a fighting man. Gen-eral Pershing realized that from the first. In the brief time that the American ex-peditionary forces have been in France the French and Italian Governments have seen the results obtained by our American systhe results obtained by our American system, have asked for the extension of the system into their armies and the Y. M. C. A. has agreed to extend the system. "A year ago the 'Y' did not expect to be running a business in France that would

be running a business in France unit do a business of \$5,000,000 a month in June, 1918. Big men are meeded for the personal contact with the men as hut sec-retaries and athietle directors. All kinds

in hand than a dozen who may be in pr pect for delivery in France in the fail. "And finally, the United States must a down to the belief that this is going to a long war. A large reserve force the be built up, to be held in readiness for eall. At the present rate of our mile expansion immediate needs are great one can tell how they will increase. "On this platform the Y. M. C. A. is p pared to wage a vigorous campaign. pared to wage a vigorous campaign, workers, to draft the right kind of a from their jobs and enlist them in service of the Red Triangle, that the may be done so well that the victory in the process quickly" come all the more quickly."

FREE COURSE IN FOOD LORE AVAILABLE

State College Offers to Train Women Students Without Expense

Women who are graduates in domastic dence courses or are interested in preparing ousekeepers to use the various food at tutes and to can and dry foods in keep with the conservation movement will be a ten days' training course free of charge at State College July 1 to July 11.

This announcement was made in woman's branch of the food conserva department. President Edwin Sparks, Stat College, made a personal visit to this dep ment of war work to announce that the course has been arranged.

Already fifty women have qualified and s expected others interested in conservatio work will plan to take the course. The st plicants whose names have siready been on rolled represent every section of Penney's vania. Others may communicate with Min Virginia McCombs, secretary of departments, 3, woman's branch of the food department ork, in the Finance Building, seventh-

and thereby add their names to the list of students. The full expense of the ten days' course is estimated to be not more than \$15. The

students will live in the village. There has been no limit fixed as to the umber who will be permitted to take the course, the object being to acquaint as ma as possible throughout the State with t best methods of saving and preparing to so that they may teach others. On returning home each will be expected to set touch with her local chairman of the we an's Council of Defense at once and offer i services in spreading the propaganda of

conomy. ALL THIS WEEK ABOVE MARY PICKFOR HOW COULD YOU, JEAN PALACE 1214 MARKET STREET MON., TUES GEO. M. COHAN "HIT-THE TRAIL Thrus., Fri., Sat.-MABEL NORMAND R C A D CHESTNUT BELOW 107H A. M., 12, 2, 3:45, 5:45, 7:45, 9 PAULINE FREDERIC

DURING the first year of the war (1917) the navy was increased from 72,000 men to 300,000. Nine hundred men gave up their lives for their country this last year.

While we are at war losses in men and ships are inevitable and the resources of the society must be enlarged to effectually carry on this hitherto successful work.

The society is not asking its friends to launch any new venture born of sentiment out of war conditions. It has been favorably known and largely supported by the personnel of the navy and marine corps, but the time now seems to have arrived for this interest to be extended to the civilian friends of the service, that they may co-operate by becoming members and help in assuming their share of responsibility in this worthy undertaking.

The Massachusetts auxiliary raised \$100. 000 last year and the New York auxiliary \$209.000; and Pennsylvania is working hard at it now.

THE officers of the Pennsylvania Auxillary, Navy Relief Society, Philadelphia Navy Yard, include: President, Mrs. C. A. Carr; honorary vice presidents, Mrs. Randal Morgan, Mrs. Prentice Nichols and Mrs. E. T. Stotesbury; treasurer, Mrs. J. G. Tawresey; recording secretary, Mrs. B. H. Fuller; corresponding secretary, Mrs. De Witt C. Webb.
