GOODRICH

About Value

A mighty big pile of good American dollars is wasted every year through the use of inferior tires and tubes.

Wartime economy demands that you conserve the buying power of your dollars—that you get a full measure of service and value for every dollar spent. You cannot afford to experiment. Your investments in car equipment must be made on a basis of sure returns in service and value.

GOODRICH
Service Value **TIRES**

are a sure investment, for Goodrich recognizes but one value in tires—their service value on your car and on the road—one tire value—service value.

And you are sure to get it if your tires are Goodrich Silvertown Cords or Black Safety Treads.

Make sure of economy and security in tires by demanding big, masterful service value tires.

We sell Goodrich service value tires exclusively.
