

## Golden Opportunities Await You In the Workshop of the World

Philadelphia is a bully town—a city of opportunity for the ambitious, industrious worker—an ideal home town for the wife and youngsters.

Here you can earn topnotch wages and, what's more, save a tidy sum every week. Here you can have a home of your own—a roomy, comfortable, "homey" home at rents far below what you would have to pay in many other large cities. And if you want to own your own home, the building and loan associations will help you finance the transaction for about what you would have to pay in rent.

Then there are the parks, the largest and finest in the world, where the youngsters can have the time of their lives. You'll enjoy an outing there, too, on

Sundays and holidays. As for amusements, you can't find better anywhere than we have right here in Philly.

And remember this, by sticking to your job here in Philadelphia, by throwing all your energy and enthusiasm into the work that lies ready to your hand, you are also doing your duty to yourself and serving your country.

If some one whispers that higher wages and an easier job are to be found in some other city, just remember that every time an American workman throws down his tools he delays the work on which the success of the war depends.

**For your own sake and for the sake of the boys over there—Stick to Your Job in Philadelphia!**

This campaign is supported in the interests of the "Win-the-War" movement by the following manufacturing interests, financial institutions, firms and individuals:

J. E. Caldwell
