Applications for Immediate Annulment of Agreements With City Refused

Contractors anxious to get out of ell ork at a profit, using warring- true of the Department of Public Works wh today let it be known that an apple a tion for annulment dees not mean so tlement for half-finished work in "fancy price."

A half-dozen municipal already have appealed in the Daniel for immediate cance)but stances the application has been turned down und ors have been told that the sureties will be held to full bility for early completion

Most of the work that contractors seeking to abandon is for sewers his coming under the Department of Public Works. No sooner had Councils gives the Mayor and other officials power to annul contracts and adjust claims that many firms prepared formal applications

Mayor Smith in discussing the efforts of contractors to get away from work said: "Director Datesman has put two of the contracts up to me and I told him that in every instance possible work must be completed by the contractor must be completed by the contractor told him I would agree to no wholesal annulments that would cost the cury lot of money and that can be avoided by a little effort.

When asked about the rush of some

tractors to quit work, in the hope of quick profits or escaping a loss of profits. Director Patesman today said "I don't know exactly how many con-"I don't know exactly how many contracting firms have approached me with suggestions for annulment but I expect a great many will do so. In every case I mean to make a thorough investigation and where it is shown that the work can be completed no annulments will be recommended. I believe most of the improvement and renair contracts under way now can be finished and I, for one, will not agree to letting contracts under way now can be finished and I, for one, will not agree to letting contractors slip out of their work by placing the burden on the city.

"In every case possible I mean to try to hold the contractors or their surety Most of the work is of such a character that it can be completed and if the contractors have to pay more than they antractors have to pay more than they are

that it can be completed and if the contractors have to pay more than they anticipated for labor that can be adjusted. The work should be done, as it is badir needed and, if I have anything to say to it, it will be done."

City officials familiar with business conditions say that a number of contractors are anxious to be released from unprofitable city contracts in the hope of leading new contracts for the Covernment.

Russia Needs Aid of Allied Army Now

to go to Russia to help her to oppose

Oerman exploitation, and in so doing to become her great self again, and there is no other way of doing it except by the dispatch of Allied troops sufficient to serve as a rallypoint for all those manifold forces in Russia which still cling to the hope of Russian in

the north and far east in numbers proportionate to the chief ally. That is the plan to which the leaders of the Russian revolution must eagerly subscribe. It is the only way to secure the real benefits of the revolution. The sum-mer is passing and the enemy is lay-ing his plans. We must rescue Rus-

GERMANS CAN SEIZE SUPPLIES FROM CHINA

By the Associated Press

The Daily Mail gives prominence to a dispatch from its Harbin correspondent, saying goods badly needed by the Germans are being sent to Russia by Chinese merchants, and are almost certain to fall into German hands.

China, according to the correspondent, has removed the embargo on the transportation of food and goods to Russia, which originally was adopted as a warmeasure intended to complete the eastern blockade of Germany, on the ground that imports to Russia cannot influence the war, that Chinese residents in Russia have been suffering from the embargo, and that Chinese residents in Russia have been suffering from the embargo, and that Chinese residents in Russia have been suffering from the embargo, and that Chinese commercial interests are suffering several losses

Chester Shipyard Foreman Has Plan to

Prevent "Slacking"

One of the foremen of riggers at the Chester shipyard is Fred Larsen a husky Dane, who has a way of his own of keeping the men on the job until the whistle blows.

At all the shipyards, like all other hig places, there are a few "slackers" who aim to beat the whistle to the time clock and make their getaway. Larsen determined to put a stop to it in his department.

He makes it a point to be with his men right up to the minute to quit and he is se sure that none of his men can get away ahead of time that he has an understanding with the time clerk that he will pay out of his own pocket \$1 for every man who gets to the clock before quitting time.
