

DAUGHTERS PLAYING, MOTHERS: OTHER NEWS OF INTEREST IN WOMAN'S REALM

MOTHERS MUST KEEP UP MORALE OF GARDEN ARMY

Ball and Neady Doll Babies Will Attack Determination of Little Boys and Girls Mobilized in the United States School Battalions

WONDER how many mothers who are now daily besieged with small children clamoring for hoes and sunbonnets and shakelocks realize the tremendous thing the United States school garden army really is.

These five million little boys and girls who are mobilized in all the cities, towns and villages of the United States are relied upon to produce 250,000,000 worth of foodstuff during this summer. This amount of money would form an army of a million men for a year. And in very extravagant fashion at that.

Alice Kent and the Day's Work

The Story of a Business Girl Who Would Not Fail

CHAPTER LV DIRECTLY Mrs. Warrington returned I told her the news, supposing that she would be glad for me that I had obtained an opportunity to earn a little money for clothing and school books.

At the end of the day's work I telephoned to Mrs. Carruth, who said she was very sorry that she could not see me recently and also said that she and Dick were going to drive out to Bellington on Sunday evening.

GETTING READY FOR A PLUNGE

Summer Fertilizing Through our field tests we have found that tomato vines often turn yellow and "go down" prematurely owing to the lack of available plant food, especially ammonia.

Cultivation Recent heavy rains have packed the soil in tomato fields very hard, thereby necessitating a deep cultivation or plowing with a one-horse plow in order to return the soil to a good mechanical condition.

Spraying Tomato blight, which often causes considerable injury and is sometimes quite disastrous, may be controlled by a considerable extent by thoroughly spraying with a fungicide.

Canning Vegetables Baby Beets The following recipe for canning baby beets is applicable to carrots.

Please Tell Me What to Do

Cynthia is a real woman who knows and understands girls. In this department she stands ready to help them with the intimate problems somehow easier to confide in a letter than in any other way.

Gift for Girl's Birthday Dear Cynthia—I would appreciate very much if you would give me a few suggestions through the column of your paper.

Cynthia's Not a Wizard Dear Cynthia—Could you please let me know through the Evening Public Ledger what the best way is to get rid of a bad cold?

Is Rouge Improper? Dear Cynthia—If you think it is proper for a girl to use rouge, what do you think of changing dark hair to golden yellow?

Hot weather means danger for your baby!

WHEN, in the stifling, still summer days, the thermometer crawls up to the nineties and your baby lies listless in his little hot bed, or tosses restlessly about, then is the time, above all others, for you to be careful with his feeding.

When you cannot nurse your baby any longer he must have milk in some form. Give him the food that half a century has proved always safe, winter and summer: Nestlé's Food.

You mothers—who are reading this—you know that raw cows' milk is too hard for your baby to digest.

BUT there is much that is good in milk—much that your baby needs. So in Nestlé's Food we take the pure milk of healthy cows and make the curds easier to digest, adding just the right amount of sugar and cereal. It comes to you a dry powder in air-tight cans. It can't sour or spoil.

All you do is to add a little cold water and boil. It is simple for you, and right for your baby.

So, in these hot summer days, when summer diarrhoea takes thousands of babies each year from their mothers' arms, keep your baby safe on Nestlé's Food.

Send this coupon or a postcard for a package of 12 feedings, so that you can keep your baby safe in the hot weather. We will send you also the big, free 96-page book by baby specialists telling you how to take care of your baby—and answering a thousand puzzling questions. For your baby's sake—do it today.
