Intional Commission's Decision in Perry Case May Result in Fracture of Big League Diplomatic Relations, Aver Diamond Authorities

#### By ROBERT W. MAXWELL Sports Editor Evening Public Ledger

18 up to Ban Johnson and the American League to decide whether not big league baseball will sail serenely through the season or stagger the rocky road of bumps and brawls. It is up to the boss of the circuit to do his bif toward maintaining peace and happiness under the big top or allow the present scrap over the ownership of Scott Perry to both organizations into a battle-royal. John K. Tener, president of he National League, has passed the buck to Battling Ban and it is the ter's next move. A baseball war at this time would help considerably In in the game for the duration of the war, especially at this writing. when an opinion is about to be handed down on the Crowder "work-orfight" order

The Dred Scott Perry case is likely to cause a fracture in the diplonatic relations between the leagues. The break has been coming for a ing time and this looks like a good excuse to open hostilities. President Tener, who is a shrewd person-far more shrewd than Blustering Ban agined-read the handwriting on the wall and declared himself. He ed out of the National Commission, stating that Johnson's attitude in Scott Perry case was unfair and he would "give no attention or conaderation to any cases submitted to which the American League is a party." Tener yesterday notified all of the club owners in the National League of his intention to quit the commission. This means one of two things: The league either will stand behind its president, abrogate the national agreement and sever relations with the American League or allow John K. Tener to resign and await the decision handed down by the Cleveland court. It is either war or a complete surrender to the Johnson organizaion without quarter. It's a safe bet, however, that the old league will not knuckle down to the American.

## Johnson Planned to Sever Relations, Is Rumor

IN AN exclusive interview with a reporter from the Evening Public LEDGER yesterday at Atlantic City, Tener made some startling statements regarding his stand. He had a grievance, and after giving it due thought and consideration, decided on his course of action. He did not to off half-cocked, as other baseball moguls have done in the past. He stated his position clearly and there were no loopholes.

"The merits of the Scott Perry case have nothing to do with the issue, as I see it," said President Tener. "The real point is that baseball's court of last resort has ruled that Connie Mack must turn Perry over to the ton club.

"The American League pledged itself to abide by the decision of the mission. Now it refuses to do so. I personally decline to remain a mber of a court of last resort that cannot enforce its rulings.

"If the American League wishes to turn the national agreement into a scrap of paper, as the Germans did the treaty which was supposed to protect Belgium, it seems to me that the time has come for a showdown."

It was rumored down at the shore that Johnson was ready to sever relations with the National League, but waited too long. Tener saw the ening and beat him to it. Now Battling Ban, instead of being the aggresis placed on the defensive. It is up to him to prove whether or not he is in favor of continuing the game under present conditions or going it alone.

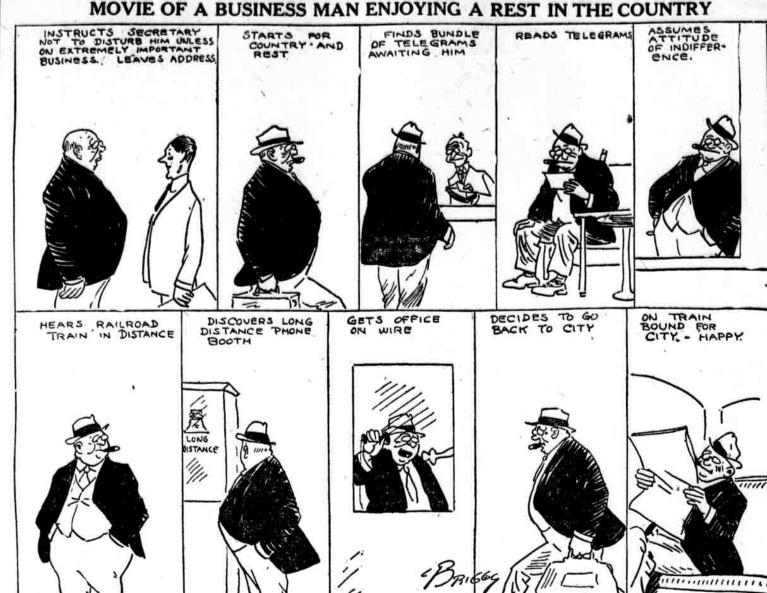

# Connie Mack Will Continue Fight for His Pitcher

WE ALL know the details of the Scott Perry case. We know that the pitcher was signed by Connie Mack this spring when he apparently was out of a job. We know that Stallings claimed him because he was with Boston for a time last year, and when the case was put before the ational Commission the pitcher was awarded to the Braves by a vote of 3 to 2. Then came the injunction obtained by Connie Mack and the case will be argued in the courts on July 20.

Connie will not back down in the original stand and said so last night. "I believe I am in the right," he stated, "and will fight to a finish. If the court awards Perry to Boston, then I will give him up. If not, then remains with the Athletics. But the court must decide."

From the viewpoint of an outsider the whole case looks fishy. Here is a pitcher who is a good athlete, but not a top-notcher, who couldn't nand more than \$7500 in the open market, about to cause the declaration of war between the two leagues.

He lost nine games in a row, which is enough to get the blue ticket n any league, and his standing today is eight victories and fifteen defeats. That doesn't look well in a scrap like this. If it was Walter Johnson or me one like that there would be some excuse. It will be remembered that the National League did raise a howl when Sisler was awarded to the St. Louis Browns and took its medicine without a murmur. Why shouldn't rican League do the same thing in the Perry case?

### MAJOR LEAGUERS LIEUT. SUTTON, GOLFER, **GREAT WELCOME** SEEK SHIP BERTHS LOST HIS RIGHT HAND, BUT FOR MAJ. CASSATT HE KILLED HIS TURK Saturday's Game With Hog Philadelphian's Horse Lauded by Callahan

Wins at Aqueduct Amid **Burst of Cheers** ALL VERY ENTHUSIASTIC

We do not wish to take any stand in this matter, because there may some inside stuff we know nothing about. We maintain, however, that soth leagues agreed to accept the rulings of the National Commission when they signed the national agreement, and the decision in the Perry case should be regarded the same as one handed down by the United States Sureme Court. It seems too trivial a matter to cause an open rupture beween the leagues, especially in these turbulent times, when baseball is triving to live under the uncertain conditions. Also, it doesn't look clubby to make an agreement a "mere scrap of paper." as did the Germans when they waded through rivers of blood in Belgium.

### Scott Perry Driven From Mound and A's Lose Second Game

THIS same Scott Perry pitched for the Athletics in the second game of the double-decker yesterday afternoon and was yanked out of the box after Detroit had nicked him for five hits and five runs in two innings. For three innings Scott breezed along beautifully, but in the fourth an error. to hits and a base on balls manufactured three markers. Two more came in the fifth and Perry's work was over for the day.

The second game was lost in a peculiar manner. Jennings grabbed a stitute infielder in Jim Curry, who resides some place in Jersey and had escaped the scouts of the Steel League and the shipyards. Jim was asked to come over the river and do some second-basing for the Tigers. because Ty Cobb was likely to get killed if he lingered around the keysack. Jim, who is a kind-hearted guy and thinks a lot of Cobb, connted to help out the boys and donned the uniform. He wore it becomngly in true Jersey style, with his cap over the left ear and a sack of est Scrap protruding from his left jaw. His make-up was perfect and he looked like old man Scrap himself.

He didn't do much in the first game, but in the second he was a bear. In fact, he won the old ball game in the fourth inning, which brings us back to that peculiar manner stuff.

Two were out, second and third occupied and Harper was at bat. Perry ted over to the bench and Connie wigwagged with a bony finger. That int free transportation for Harper and the bases were clogged. The was to make Jim Curry, of Jersey, feel humiliated or sore or someing and get his animal. But Jim was not worried. He probably knew othing of the plot which was to claim him as an innocent victim. He ole a fresh chew and strode to the plate. Noticing all of the men on ase, he seemed surprised.

Perry shot one over and Curry allowed it to drift by. Another came g up to the pan-a regular cripple, which could have been knocked t of the lot with a darning needle-and Jim busted it right on the nose a double. Three runs came home on the lusty blow and from that time m Mr. Curry was an important person. Even Ty Cobb stopped and asked he was having a pleasant time. Perhaps Jennings will sign Curry If one of the shipyards doesn't beat him to it.

#### Loss of Acosta Is Severe Rlow to the Athletics

COSTA, the Cuban outfielder, sprained his ankle in the first game and phably will be on the sidelines for at least a week. He tried to beat a grounder to Heilman in the eighth inning of the first game, and when mw the play would be close he tried to slide into the bag. His toe caught ick and his foot doubled under him, spraining the ankle. He limped clubhouse, where Doc Ebeling made an examination and kept him the second game.

Acosta believes he will be able to play tomorrow," said Connie after ne, "but I don't believe he will be able to do anything for a week days. His ankle will be pretty stiff and sore in the morning."

Cuban was going good for Mack and looked like a find. He is a er, but has been in the big league several years. Clark Griffith m, but he didn't show up very well. He was a fair fielder and a very atter. Last year he was with Baltimore, and at the end of the season Dumn shipped him to Atlanta. He was not considered a star, even in and Connie bought him because he was the only available outon the market.

ager Mack admitted that he expected little from Acosta and was ed when he started to hammer the ball. Batting never was one of n's strong points, and it looked as if he was just getting into his when the injury occurred.

to, and when Hog and a great array at Upland on Saturday a great array of talent will be on hand. For Hog Island it must be said that Manager Johnny Castle will stick to only eligible men and while "Hans" Lobert, former third baseman of the Phillies, will be in uniform he will not get into action. Lobert was also at Bristol on Saturday, Lobert was not used. The hurling selec-tor was not used. The built Bender tion for Hog Island will be Chief Bender or Eddle Gerner, most likely the latter.
