BANK CHARTER IS CAUSE

Effort to Upset Clemenceau Cabinet Is Checked by Return of Deputies

Special Cable to Evening Public Ledger Copyright, 1918, by New York Times Co.

Paris, July 13. Through adroit maneuvering the Se cialists in the Chamber of Deputies came within an ace of bringing about the fall I Generali Cadorna, Porro e of the Government, and involving the country in a political crisis of the first magnitude, which at the present juncture might have seriously compromised the cause of the Allies.

The incident occurred in the course I of the twelfth of a long series of debates which the Socialists are insisting on devoting to the question of a renewal of the charter of the Bank of France, with the object of hampering the Government. Most of the sessions have been characterized by very thin houses, owing to the fact that a large number of members were absent in the

country.

It should be explained that so far as voting powers are concerned, the actual presence of a member in the House is unuccessary, as under the French system voting by written bulletin is possible, and vote by proxy is very frequently adopted. In such circumstances delle Armate Italiane al fronte di batgroup of members may east five times their number of votes.

At yesterday's session a fair number of Socialist members were present on the extreme Left, but the Center and Right, or Conservative benches, were virtually empty. The first division silving was one an amendment of the self-ting was one as a sel the main proposition, renewing the char-

with a fresh Socialist amendment purposing to give the Government power to terminate or modify the charter at the expiration of the first ten years of the expiration of the first ten years of the new period. Finance Minister Klotz omphasized the importance which the Government places on the matter by stating that the Government would regard the research.

gard the rejection of the amendment as a matter of confidence.

When the moment came to take the division, M. Mistral, one of the Socialist verificars, e clo' do members, seized the opportunity to demand that a vote should be taken by a rollcail of the members present and not by the usual method of depositing signed bulletins in the urns. Had this maneuvre been successful there is no doubt that the Government would have fallen, as a large number of members, gill italian fecero un largo numero di members, and the successful there is no doubt that the government would have fallen, as a large number of members, excessful the successful there is no doubt that the covernment would have fallen, as a large number of members, excessful the successful regarding the main question as decided, prigionieri e si impossessarono di una had left the House, and of the hundred immensa quantita' di materiale da or so remaining, the Socialists were un- guerra.

of so remaining, the socialists were undoubtedly in the majority.

The only thing that prevented a disaster to the Government was the laxity of the Socialists themselves. Opinion in Paris yesterday was not

flattering to the Socialists, who are bitterly reproached for their tactics in
deliberately attempting to invoive the
country in a political crisis in the
present critical situation. It is recalled that Clemenceau's last government was brought down by a similar surprise manoeuvre in 1909 and France, in its appreciation of the magnificent manner in which the veteran Premier and War Minister is carrying on the Government, is fearful over the narrow escape of

to repeat their attempt.

day allowed the Atlantic and Suburban Railway Company as a war surcharge an increase in rates of from ten to twelve cents from Atlantic City to Pleasantville, and from five to six cents between Pleasantville and Linwood, Linwood and Somers Point, Pleasantville and Absecon.

The price of strip tickets between Atlantic City and Pleasantville is increased from six for fifty cents to six for sixty cents. No change in the rate of \$3 for a sixty-trip commutation between Atlantic City and Pleasantville is made, and none either in the \$3.90 commutation tickets between Atlantic City and Absecon and Atlantic City and Linwood.

It is estimated the new rates will yield an increased revenue of \$15,-897.29.
