SOUTH AMERICAN MAY FLY

London Paper, Renewing \$50,000 Prize Offer, Hints Possibility

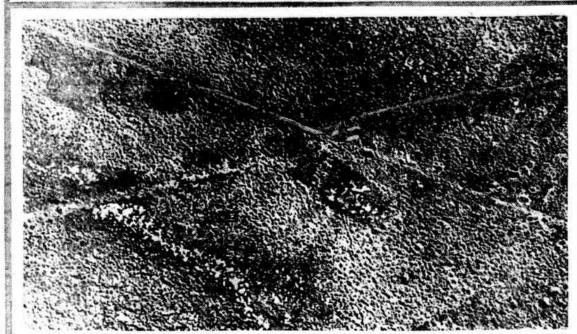

Special Cable to Evening Public Ledger Copyright, 1918, by New York Times Co.

London, July 16. — The Daily Mail says it is rumored that there is a possibility of a South American airman attempting to fly across the Atlantic this year. The paper believes a flight from New Foundland to Ireland or from New Foundland by way of the Azores to England is now just as feasible as any of the long-distance flights that have been accomplished since the war began. In order to stimulate production of more powerful engines and more suitable aircraft, the Daily Mail again offers its 110,000 (\$50,000) prize for the flight across the Atlantic from any point in the United States, Canada or New Foundland to any point in Great Britain or Ireland, or vice versa, in seventy-two continuous hours.

The offer, which was first made on April 1, 1613, was suspended on the outbreak of the War. Copyright, 1918, by New York Times Co.

ORVATH'S RULE SURPRISE LACKING BEFORE AND AFTER A BOMBARDMENT BY BRITISH GUNS RUSSIA ON VERGE OF BRIGHTER ERA

These remarkable photographs show the result of a two days' bombardment by British big guns of the town of Zonneheke, where the Germans had put up a supply station. The British got the range of the crossroads where buge varebouses and railroad tracks, with trains, were located, and bombarded them with such deadly accuracy that they were completely blotted out. Shells were fired over ail portions of the town at the rate of 800 pe tinute throughout two days and a night until every foot of ground was devastated
