# KER RULING HARD BLOW TO PASTIME-BASEBALL PARKS MAY HAVE TO CLOSE THEIR GATES

## **PRIEVE BY PRESIDENT INTIL OCTOBER 15 ONLY** CAN SAVE MAJOR LEAGUES

### r Baker's Ruling Baseball Cannot Survive and 150 **Players Must Seek Other Employment—Tener** and Johnson May Confer Here

## By ROBERT W. MAXWELL

Sports Editor Evening Public Ledger LESS President Wilson steps in and gives baseball a reprieve until tober 15 the National and American Leagues will be snuffed out the next week. The game cannot continue under the ruling handed by Secretary Baker, for every club in the league virtually will be out with the exceptions of the bat boys and managers. More than layers will be taken away in the big leagues and more than that number the minors. Baseball for 1918 will come to an abrupt stop, the pennant never will be decided and the world series lost in the shuffle. Under Baker's ruling the only team in the country that is exempt is the n Bloomer Girls.

The situation is serious. Hundreds of thousands of fans-all engaged eful occupations or above the draft age-will be deprived of a naal sport because 150 players have been ordered to quit their chosen on to take up different work which will pay them less than one-If the money they now are earning. Not only that, but millions of dollars ned by club owners will remain idle while the ball parks are closed. all of this because 150 unskilled laborers must take up another line of

It seems unfair, but when one stops to consider that we now are enred in the biggest war in the history of the world, a war which is likely o continue for years and millions of men will be required to go overseas hold the honor and dignity of the United States, sacrifices, no matter large, are to be expected. We all must do our share toward winning he big conflict, and if we are deprived of a few afternoons' enjoyment we uld grin and bear it. The matter was given serious thought by the remment officials and the final ruling must be accepted without protest. the more we do the sooner the war will be over and conditions again will tern to normal

Shipyard and Steel Mill Teams Will Entertain the Public No MATTER what happens to big league baseball, the public will be able to witness high-class games this summer. Philadelphia is fortunate in having Hog Island, Chester and Sun shipbuilding plants near by, and it rould not be at all surprising to see those teams playing either at Shibe Park or on the Phillies' grounds in the near future. Many former big inguers are working in the yards and can play Saturday afternoons and on holidays.

Furthermore, there will be a big rush for the shipyards within the week and there will be enough talent to start another new league.

The ball players did not express surprise when told of the official veryesterday afternoon. I visited the Cleveland dressing room after the a had been called and watched with interest the effect of the news that men must work or join the army.

Lee Fohl, Tris Speaker, Joe Wood and another player were playing ds and the game wasn't even halted. Between deals Fohl said: "Well you can tell the world that we are not kicking about the order.

Uncle Sam tells us to fight we'll do it. If baseball must go, it goes-Is all there is to it. The war comes first."

Tris Speaker looked at his cards and dropped them on the table. "It's at last," he said, "but I am not worrying. I decided to do my bit a time ago and now am awaiting the call to join an aviation camp. I tered for the service when we were in Washington, delaying it until because I wanted to attend to it myself. I'm ready to go at any

Ray Chapman and Evans, the third baseman, already are in the service they are making plans to join the colors at once.

The men who have dependents plan to go to shipyards or get some aployment that will give them a chance to play ball Saturdays and

### Few Soft Jobs Left-Men Must Work Like the Others

DHNNY CASTLE, manager of the Hog Island baseball team, was at the name yesterday, but did not appear enthused when told that baseball skating on mighty thin ice. He expected to see many of the big ruers down on the island, but stated they would be treated the same as one else.

"We are making no effort to sign star ball players," said Castle. "We neve certain rules to follow and we live up to them. No preference is wn, no overtures are made and a ball player will have to work just as and as any one else in the yard. Our ball club is coming along in good pe, but all of the players work hard on the ships we are building.

"If any new men wish to enter this work they can start at about \$35 week and they will earn every cent they get. If they show any unusual lity they will receive more. Not one cent extra will be paid to ball ayers. Hans Lobert and Chief Bender are on the job\* from morning until acht and play ball on their off days. That's how things are run at Hog know anything about the other yards."

ing out ball players he said: "Yes. Like many other boards, we have been expecting an official rule on the question, and now that we know where the ball player stands we will

sary. Got to keep smiling." If neces-sary. Got to keep smiling." If the leagues decide to finish out their season by signing players outside the draft age, Mack has as a nucleus. Rube Oldring Rube Oldring, Larry Gardner, Pearson, Dugan, Dykes, and Acosta. Dugan and Dykes are in Class 1-A in the 20 term

It is known, however, that members of the local teams have been asked join certain plants in case the work-or-fight order is put into effect, and players virtually have agreed to go. This will stimulate interest in gard athletics and make the games more important. Baseball fans still be able to cheer their old favorites in different uniforms,

The steel mills also will take care of many players and their teams Il be strang:) e.ed. However, those plants are far away from Philadeiphia ad the only interest will be up-State.

No matter toy you look at it there is no chance for baseball to con-There has been some talk of going along with players over and der the draft age, but it would be difficult to find men whose work would the fats. It would be a losing proposition and the baseball magales have lost enough money already.

#### **Big League Chiefs May Ask Wilson to Intervene**

T 18 cerum that the American and National leagues will make an attempt to finish the season and may ask President Wilson to grant a rerisve until the middle of October. It was reported last night that Presi-ents Johnson and Tener wiuld be here today to discuss the Perry case, and after that make a trip to Washington, but no one in Philadelphia seems to know asything about it. But it's a safe bet they will be in Washington a few days.

They have only a very slim chance, for Secretary Baker's statement carefully prepared one and probably reflects the views of the entire inistration.

They can refer to the contributions made to the national Treasury d Red Cross, and point out that up to June 1 the sixteen major league shubs paid \$\$8.715.66 in war taxes. This indicates that nearly \$1,000.000 in mions has been paid in less than two months and the game was getmore popula. every day. As for other contributions, big league baseball as given \$450,000 to the Red Cross and the officials and players have subbed \$8,522,450 to the Liberty Loans.

TOWEVER, as Saturday is a half holiday, two games will be played at Shibe Pars this afternoon between the A's and Cleveland, Tomorrow, uch is a day of rest, the teams will journey to Cleveland, where they will another game. It is doubtful if Lee Fohl and his Tribe will return to adelphia to play their game on Tuesday unless there is a change of stiment in Wasnington. . . .

THILE Secretary Baker was administering his knockout wallop the A's defeated Cleveland yesterday in a short legal ball game by the score I to 0. The game would have gone the entire nine innings, only a rain m butted in and Dick Nallin called the game in the last half of the fifth one out and three balls and one strike on Jimmy Jamieson

The conflict was captured in the first frame, when, after two were out. Walker singled and scored on George Burns's long triple to the score-Tiogs. George counted when Steve O'Niell allowed one of Coumbe's to slide through his mitt and the ball sailed to the grand stand. isitors were unable to do anything with Watson's slants,

CRE was lots of excitement in the fourth inning. Speaker was thrown at first on a hit which dropped in front of the plate. Tris held a conversation with Nallin and from the grand stand it looked as if at center fielder would end by hitting the umpire with his bat. Howit was just a friendly argument, like this: What's the matter, Dick? Can't you see?" re. You're out." I'm not. The ball was caught on the fly and it should have been

to hit the ground. You're wrong. Betcha you're wrong." right. What'll you bet?" hat. Prove it by the rules."

w're on. You owe me the hat, because I know the rules."

IAN'S Phillies are ready for a long home stay, finishing up in sh this afternoon. On Monday they will play the A's in a benefit ily of the late William G. Weart, and the chances are at time the fans will be able to witness a big league w. The Phile will be back tomorrow.
