CALLS COAL MEN **BIG TAX DODGERS**

F. C. Reese, State Official. Says Millions Are Lost in Schuylkill Region

SOME TOWNS, BANKRUPT

School Directors and Councilmen Decide to Fight Alleged "Trust"

Pottsville, Pa., July 30. A county convention of school direc tors and Councilmen at the courthouse were astonished when former Represen-

tative Frank C. Reese, presented figures which he said showed that the big coal companies have for years dodged million of dollars in taxation in this county. Because of this tax-dodging, Mr. Reese asberted, conditions in the anthracite region have become intolerable. Towns and townships which are among the wealthlest in mineral deposits in the whole world are bankrupt and skilled miners have for years been leaving the

county as fast as they could establish themselves elsewhere, he went on. Mr. Reese quoted from the report of a State commission showing that of the 19.-000,000,000 tons of coal in the anthracita region, 12,000,000,000 tons were in the Schuyikill region at the time the report was made. And yet, he said, the coal ands in this county are only assessed \$24,000,000 as compared to \$171,000,000 in the less wealthy coal county of Lu-

It was decided to form a permanent organization to fight the "coal trust" and another meeting will be held at the courthouse next Monday. Most of the School Directors and Course for the School Directors and

Councilmen were accompanied by their solicitors, who took part in the meeting. An increase of \$200,000,000 in the tax valuation of the coal lands is confidently predicted. Mr. Reese, who is now an auditor in the State Highway Depart-ment, will address the Dauphin County Commissioners on the same subject to-morrow.

Reese indignantly denies in behalf of the miners that too much alcoholic liquor is hindering the production of coal. He said this is only one of the many "goats" put forward by the operators as an ex-cuse for the nonperformance of their duty to the country.

COMMITTEE TO STUDY NEW REVENUE BILL

Named by Alba B. Johnson, President of State Commerce Chamber

Harrisburg, Pa., July 30. The Pennsylvania State Chamber of Commerce committee on national tax legislation, authoried to make a comparative study of the new revenue bill

Louis T. McFadden, chairman'; H. D. Shute, East Pittsburgh; Fayetta R. Plumb, Philadelphia, and Paul Little-field, secretary, Harrisburg. Chairman McFadden is Congressman from the Fourteenth Pennsylvania Dis-trict, a prominent minority member of the House Banking and Currency Com-mittee and an expert on banking, cur-rency and Federal taxation. He is vice president of the Westinghouse Electric and Manufacturing Company, and for a number of years was its treasurer.

MARINES ON LOOKOUT FOR RIOTERS Russia's Heart Broken in 1915; Won't Fight Again

By CHARLES H. GRASTY Special Cable to Evening Public Ledger

Copyright, 1918, by New York Times Co. London, July 30.—Americans arriving here from Russia agree in the belief that that country will not participate in the war again on either side.

"Russia's heart was broken in the defeat late in 1915," said one. "She was so big that there were enough shattered remnants to create an impression of activity for some time afterward, but her strength declined steadily. If the Allies strike a hard blow on the western front within a few months it will paralyze the German tenta

cles in Russia." Ambassador Francis is reported well and optimistic. He said a short time ago that he purposed staying in Russia if he had "to live on wheels."

BETTING SYSTEM PIONEER HELD

George Graham Rice Charged With Using Mails to Defraud By the Associated Press

By the Associated Press New York, July 30.-Jacob Simon Her-zeg, better known as George Granam Rice, who first gained notoriety by found-ing the mythical firm of "Maxim & Gay," which was the pioneer in supply-ing advice on "the one beat bet" in horse racing, was arrested here last night by a United States marshal on the charge of using the mails in a scheme to defraud. He was released in \$15.000 ball for a hearing. Rice has been involved in other finan-cial enterprises with nation-wide ramifi-cations, some of which resulted in prison sentences. According to the Federal au-thorities, he started a brokerage business in this city about six years ago and claims to have 53,000 customers, 125 em-ployee and office expenses of \$200.000 a year.

EHRET TO FIGHT SEIZURE

New York Brewer to Institute Proceedings for Return of Property

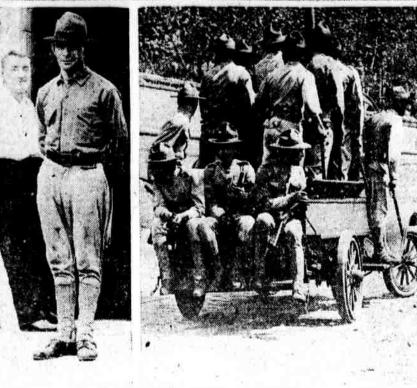

By the Associated Press

By the Associated Press Washington, July 20.—George Ehret, a brewer of New York, whose estate, estimated to be valued at \$10,000,000, recently was taken over by Allen Proper-Custodian Palmer, was reported today to be returning from Germany to institute proceedings for recovery of the property. The crase is analogous to that of Mrs, Adolphus Busch, the widow of the St. Louis multimillionaire brewer, who now is seeking recovery of her estate which was seized while she was in Germany. Ehret went, to Germany before the United States entered the war, and his friends claim the trip was made neces. sary by reason of his declining bushth. His property was soized by the Govern-ment on the ground of his German resi-dence, as residence and not citizenship is the determining factor in such cases.

GERMANY HURLS MILLION MEN INTO GREAT BATTLE

Gigantic Force Makes Mere Dent in Allied Front. While Foch

Presses on for Gains at Various Points

. The Germans have thrown nearly a million men into the gigantic battle between Soussons and Rheims and have been victously counter-attacking all around the circular line that

stretches from Solssons to the neighborhood of Rheims.

Even this formidable force, however, appears to have made not more than a dent or two in the Allied front in its latent effort, while at various

points progress for the Allies, slight but important, is reported. Regarding the strength of the Ger-

man forces, unofficial advices state that there are seventy-one Teuton that there are sevenity-one readon divisions engaged in this struggle. The strength of a German division is about 13.500 on a normal footing, so that if all the units resisting the Al-lies north of the Marne have been kept up to standard, there are 958,500 men trying to hold the line until the situation is celleved. Of these divis-ions there are ten drawn from Crown Prince Rupprecht's army in the north. Traves from Other Fronts

Troops from Other Fronts

Troops from Other Fronts The German Crown Prince had in the neighborhood of 500,000 men be-tween Rheims and Chateau-Thierry when the attack across the Marne be-gan on July 15. The increase in the number of divisions engaged in the battle would appear to indicate that he had since that time drawn heavily on other army grouns. It would also

"She's More Valuable Than Ever Before"

"SHE'S always been a mighty faithful girl, but recently she's been helping me more than ever. In the old days she used to work in the outside office because I couldn't stand the rat-tat-tat of the noisy typewriter.

"You know what that means. Always yards away when I wanted her most-never near enough to answer the telephone-just a typist instead of a private secretary.

"But all that was changed the day we installed the Noiseless Typewriter. Now she works right at my elbow, yet unless I watch her hands I hardly know she's typing.

"The Noiseless has increased her efficiency-and mine, too-fully 50%. More work-better work-quicker work -that's the answer."
