Shall She Write?

Dear Cynthia—I am coming to you for advice in a little matter, as your column has helped me in the past. He entailed and the last still and came to see me to say the strength of the college and the strength of the college and the strength of the college and the colle

As you know this man quite well, and he thinks enough of you to send you two of his photographs, I think you might write to his mother and ask for his present address. Tell her that two of your letters have been returned, and that you have had no answer to the last one you wrote, and so you think, perhaps, he has been moved again, and as you want to acknowledge a photograph he sent you, you thought she might be able to locate him better than you can. I do not think I would refer to the letters already sent in care of her.

The two-month War Emergency course in employment management that is offered in Cleveland, consists of day-time work in the factories, classes at night and discussions.

To the Editor of Woman's Page:
Dear Madam—Can you please tell me how
t could make some money in my spare time.

I will send you some suggestions of work to do in your spare time if you will tell me what kind of work you can do and whether you are a man or a woman, and send me a two-cent stamp or self-addressed stamped envelope. A woman can get sewing to do in spare time from the Schuylkill Arsenal if she applies at the gate at Twenty-sixth street and Grays Ferry road. A man can apply at the employment bureau of the Department of Labor and Industry, at 1518 Arch street, for work to do in spare time.

I cannot tell you how much this will pay, as 1 do not know what kind of work you would be able to do. If you will tell me more about yourself I will be able to tell you more about the work.

There are night classes in some of the preparatory schools in this city. I will send you the names of these schools and the tuition, but I cannot tell how long it will take you to finish, as it depends upon your ability and the amount of study you have had. One school which has night classes charges \$5.50 a month, with classes on Monday and Thursday evenings, and also offers another course of classes from 5 to 7 o'clock in the early evening, five days a week for \$11 a month. This school will send you literature and information about the courses that you can take there and how long it will take you. If you are considering a college course, decide first on the college you want to attend and the strange to me. sidering a college course, decide first on the college you want to take up in college, then go to the dean of this college and state your wants and qualifications, asking his advice as to the proper school to George W. I am so glad the sweater turned out well. I hope you are successful with the material for the rompers. The best color to dye your dress would be dark blue or green, as the dress will take that better

Has Nothing to Wear

Dear Madam—You have helped others, so I would like to know if you could hele a woman in setting some clothes to wear. She is of medium build. I know she has positively nothing in the line of clothes and everything is so dear she cannot get any and she cannot go outside of the door. She does not know I am writing this, but I have often heard her wish for something to wear. Your unselfish thought for your friend surely deserves an answer, and I am sure some one will find some clothes for this poor woman. I will send her ad-dress to any one who writes to me about it and I hope there will be an answer soon.

restaurant or the tea garden seems the most convenient place to get to, as well as get away from, and one may dash in and dash away with an easy conscience. It is quite excuse enough that one "has work to do." There is, however, a call for a gar-

## The Heart Hunters

By MARY DOUGLASS Author of "Hunting a Husband"

WHERE was I? I looked around the room, dazed, in the bright morning sunlight. Across from me lay a tumbled heap of heddothes, a silk stocking hung from the bureau, an upturned page of fright through me.

I walked back to the Art Club on clouds, I opened the door of my little room. The shades were pulled down. Alice James lay stretched on her cot. She lifted one hand from her eyes as I came in.

At last I stood up. The girl whose easel was next to mine smiled at me. "Won't you come to lunch with me?" Some of my shyness slipped away. In I caught flashes of talk that held me. They were living, all these girls and men. Through the smoke and noise I watched them. I ate spaghetti and haked apples. Never had anything tasted so delicious.

All the time the little girl beside me was talking to me.
One o'clock!

I hurried to my afternoon class. Everything and every one was forgotten. I worked in a happy dream. At last I was doing what I wanted to! "Criti-

"Busy tonight?" she asked.

I shook my head.

"Joe Hammond is coming to see me. and I've one of my raging headaches. You must take care of him.

"Why couldn't Elizabeth Clark?"

"Betty Clark? Never! She would spend her time cutting me out. No, I want you."

spend her time cutting me out. No, I want you."
"But I don't want—"
Alice flung her hand over her eyes.
Turned on her side.
The subject was closed.
Who was this Joe Hammond? How should I entertain him? I, who had no knowledge of men except Eddle Smith and Eleanor's younger brothers.
I dreaded it more than anything I had yet ventured on.
But—it must be done.
