### RED-HOT RIVETINGS CAUGHT ON THE FLY

#### Glowing Bits of News From Gloucester Pertaining to Shipyard Workers

N. Baldwin, of the boller and ligh plate shop, welded a side-door casting in forty-five minutes, and now all the other welders, especially Miller and King, are out to beat him.

In the same shop Cathcart and Carr have hurled a challenge at Messec and Hewitt to a contest at drilling boiler tube plates.

Tiger Davis, of the Pennsylvania angle bending shop, is one of the new ones there. He was formerly in the middle yard. The boys are wondering how he and Pete Pooley will get along. Both are clever with the gloves

#### Corporation Order Hits Camden "Absentee" Shipworkers

"Absentee" Shipworkers

Deferred classification of two employes of the New York Shipbuilding Corporation. Camden, has been canceled by the Emergency Fleet Corporation because of alleged repeated absence from their work. This action is in line with a recent decision of the fleet corporation.

The men affected are Merris Hughes, employed in the small boat shop, and D. A. Toal, a draftsman, who has been in the company's service for several years. The result of the fleet corporation order was that both men were made subject to immediate call for military service. New York Company's officials stated that Toal's work had been satisfactory but that his irregular attendance seriously held up his work. It was stated that Hughes had been in the habit of absensing himself "one or more days" each week.

and Vice President Plez were greatly pleased by the addition of 5000 tons weekly to the regular allotment to the yards, and praised the War Industries Board for its fairness.

As steel plate constitutes about 75 per cent of the steel in a ship, the rest being angles, shapes, etc., the allotment means 3,466,000 tons per year to the shipyards out of the country's steel production of 42,000,000 tons. By the usual

Atlantic City

The Hog Island Girls' Club, recently organized for social, physical and intelectual advancement, is getting ready for a big week-end party at the shore August 27.

About forty members will leave at noon for Atlantic City and splash in the surf and burrow into the sandy beach to their hearts' content. If there is any fun in sight down there for Sunday evening the girls will renain over until Monday morning. They don't want to miss anything.

These same girls have whooped things up at several week-end house parties this summer. Dancing being one of their favorite diversions, intelectual matters are frequently crowded off the program; still they manage to find time for some of that, tooy in between the light and frivolous occasions.

TWO BROTHERS IN FRANCE

Chester Shipperd Guard Lays Claim to Proud Kinship

M. H. Hunnicutt, one of the guards at the Chester Shipbuilding Company's plant, has two brothers with the American army in France. One of them was wounded several weeks ago, and as the brother here has not received any further word about him he supposes he has recovered and taken his place in the ranks again. The Hunnicutts are from Greers, S. C.

G. W. Thomas, another guard at the same plant, has been summoned home to Lars, Northumberland County, Va., to attend the funeral of a brother.

Enjoy Themselves at Park

Two hundred marines this afternoon went to Willow Grove Park as guests of the park management. The marines gave a drill without arms, with the band. There were no commands issued during the drill and all of the movements were executed to the niusic. Following the drill a boxing tournations was served at which the marines were the guests of Mrs. George W. Childs Drexel, chairman of the canteen bureau of the Pennsylvania division of the Red Cross.

Tonight the marine band will give a concert and the detachment from the navy yard taking part in the drill and sing other marines on furlough attended.

Major Patterson, of the marine requiring station, and Manager Davies, of Willow Grove Park, had charge of the affair.

Nine Rules for Conservation

Are:

Pirst. Do not drop the second or third himp of sugar into your tea or coffee. One lumb of sugar into your tea or coffee. One lumb will do just as well.

Second. Stir the sugar in the bottom of the cup theroughly with your spoon.

Third. Do not shake the whole spoonful of granulated sugar over fruit or cereal just because you absent-mindedly took a spoonful too much. Put back all except what you actually need.

Fourth. Do not use the customary amount of sugar if you have condensed milk in the preparation of any food. That alone will furnish almost chough sugar.

Pifth. Do not make a sugar sycup for griddle cakes if you have some surplus joice from canned fruit. Add chopped dates, raisins and cuitants to the breakfast cereal and you will not require sugar bowl on the table every meal if there is no need for sweetening. Remove it and help establish the habit of using less.

Seventh. Use sweet dried fruits, as dates raisins and figs, to sweeten desserts and cereals and in place of candy.

Pighth. Use honey, syrups, maple sugar and molinsses to sweeten deaserts and so far as noseible in canning and preserving.

Ninth. Can fruits without sugar and by making fruit pastes where the natural sugar will give most of the sweetness.
