INTERNATIONAL HARVESTER OF NEW JERSEY ADVANCES ON THE DISSOLUTION DECREE

Buying for Important Interests on New York Exchange Sends Price Upward—Steel and Some Specialties Advance Near Close

Important interests bought International Harvester Company of New Jersey on an announcement of Supreme Court's dissolution decree and it made a good advance. After dullness steel and some industrials and specialties became active and higher near the close.

A strong incentive for operations on the long side of the stock market was furnished before the beginning of business today, with the announcement of the decree of the United States Supreme Court arranging for the voluntary dissolution of the International Harvester Company of New Jersey.

The steel industry made no response to the Harvester dissolution until long after midday. Then United States Steel common, which had been ranging all through the morning around 108, reflected accumulation orders and had a quick advance to 110.

American Sumatra Tobacco was forced up 6 points to 129, and General Motors made a gain of 4 points to 150, with many other specialties forced up with a good deal of vigor.

Insurance Company of North America and Philadelphia Company cumulative preferred were unchanged, while Westmoreland Coal advanced 1/4 of a trifling transaction.

United States Steel was slow and lower virtually throughout the session but turned upward for a good gain in the later afternoon, when it showed more momentum in line with the course in New York.

Lehigh Valley general 4 1/2s were active in the bond market, and yielded 1/2 of 1 per cent to 8 1/2, and Reading general 4s lost the same amount to 8 1/2.

Liberty Loan second 4s and third 4 1/2s were lower, the former declining as low as 93.10.
