

vise Means of Meeting Emergency

NEED 120,000 KILOWATTS

imperative to Expedite Supply and Munitions Contracts Here

Confronted by the most serious short of electric power Philadelphia has Henderson. State advisory engineer ever known, officials of the district nower and light conservation division the Federal fuel administration went to executive measion at the Medical Soviets Declare Arts Building at 2:20 o'clock this after on to wrestle with the problem. War industries here are urgently

need of 120,000 more kilowafts of elec- Continued from Page One trical power than is available, and the after their flight, is not taken seri quartermaster's corps and the ordnance ously.

department of the army are insistently urging that means be found to expedite supply and munitions contracts placed Archangel

We are up against a very ahortage of power." said J. Franklin Stevens, president of the Engineers' Club and chairman of the district conservation division

"Philadelphia's war industries could e 120,000 kilowats (160,000 horsethe rest is a second when the second horse-power) more than is available. This demand will steadily increase during the next few months with the expansion of war industries, and later, with the increased use of electric power for lighting purposes, which naturally lighting purposes, which naturally will follow the shortening of the daylight hours and the coming of winter.

More Drastic Conservation

"The public utilities and the public in this district have responded locally to every appeal we have made for con-servation of light and power. New and more drastic demands will have to be made. Every item of waste, every leak-age of power, must be stopped, and we must save coal right down to a matter of pounds and fractions.

Whatever measures we may find it necessary to adopt to meet the situation, we can assure the public that light and Special Cable to Evening Public Ledger power will be as widely distributed as sible. Curtailment of both in many arters is certain, however. When-luntary measures fall, we shall have to se compulsion.

Two developments in the power situaon, which took place before the con-sence this afternoon, encouraged Mr. tevens in the belief a way would be Wanamaker e Wanamaker store, which has its vn power plant, had voluntarily decided keep open for business only between

he hours of 10 o'clock a. m. and 4:30 clock p. m. for the duration of the ar, and to divert the power generated r its plant to the Philadelphia Electric ompany for general uses. This means an additional 900 horse-

er of direct current available during drastic measures for the maintenance store's open hours and 1400 horse of order in Petrograd. Restaurants, be taken from the load in the central district and diverted to the war plants in outlying districts. It also will save and the inspection of motors and pas-mans by French and American troops car traffic thousands of passenrs daily during the busiest hours of e peak-load period.

### Loan for Philadelphia Electric

0,000,000 would be made to the Phila-lphia, Electric Company by the War spartment and the United States shipping board for the expansion of the com-pany's Chester power plant and the com-pletion of its partly constructed plant at sach and Palmer streets on a much

Beach and Paimer streets on a much larger scale than was planned. Negotiations for this loan have been in progress for several weeks, and it is reported that it is about to be consum-mated. In that event 30,000 kilowatts will be added to the capacity of the Chester station, and 90,000 kilowatts to be consumed by the Bol-sheviki to force them into a Red Guard army being formed, a dispatch to Co-penhagen from Helsingfors stated to-day. BUSINESS AND LABOR

ing those hours of the day when the traf-fic is ordinarily light. Results of a survey which has been made of power plants throughout the southeastern part of the State probably will be faid before the conservation committee this afternoon. On the basis of this report the committee will work out a plan of making available to war el Officials Confer to De-industries every possible killowatt of surplus current. It also is probable that the committee will arrange a

starting schedule for factories, designed o distribute the peak-load. Officials who attended the conference, esides Chairman Stevens, were Arthur

L. Church, assistant to the president of the Baldwin Locomotive Works; J. Miller Frazler, manager of the Bellevue-Strat-ford, representing the hotels; C. L. S. Tingley, vice president of the American Baller Rallways Company; Samuel Freer, sec-retary of the Ice Publicity Bureau; Peter O. Johnson, power engineer of the J. B. Lippincott Company and State deputy of the National Association of Stationary Engineers; Thomas Sproule, transmission engineer of the Philade-bia Frances & W. Vollace.

phia Electric Company; A. W. Vollmer, representative of the Office Buildings Association of Philadelphia; George R. the fuel administration, and E. L. Cole irector of the concervation division
