## PLAN TO QUARANTINE **BURLINGTON PRODUCE**

New Jersey County Infested With Japanese Beetle-Federal Aid Proposed

A Federal quarantine directed against he shipment of garden truck and farm from sections of Burlington inty, New Jersey, has been proposed of the infestation of the Japbeetle. Members of the Federal forticultural Board will hold a public earing on the quarantine plan, at Washington on August 20 and Burlington County dealers have been invited to be

A campaign of eradication, authorized by Congress, is now in progress and in were: A. Alexinder, M. Jounbrus.
The proposed quarantine is deemed W. Bell, E. Weinsaft, J. Gorneyjo, A. The proposed quarantine is deemed sary to support the measures that are being taken elsewhere for the suppression of this dangerous pest. The insect was introduced in the vicinity of Riverton during the last five years in soil from Japan around the roots of

The beetle has thoroughly established itself and from 600 acres infested when the insect was first discovered, it has spread to cover from 7000 to 10,000 res, with one or two outlying points of infestation, involving approximately 25,000 acres. Its behavior indicates exceptional possibilities for damage. The quarantine sought to be made effective will prohibit the shipment of green sugar corn, ripe tomatoes and ripe peaches. These are said to be the easiest carriers of the pests.

Doctor Wants Wife in Philadelphia to Meet Expense

Meet Expense

Scranton, Pa., Aug. 15.—Praying poverty. Dr. Aaron Cantor, of Dickson City, today asked the court that he be spared the expense of paying counsel fees and bills incurred by Esther Cantor, in successfully fighting a divorce that the physician sought in the court here and in the Supreme Court.

The doutor says Mrs. Cantor is a professional nurse in Philadelphia and is earning considerably more money than her husband. In addition she is receiving \$30 per month alimony.

## HIGH WAGE LURE SCHOOLS' MENACE

Big Pay Raids Teachers and Pupils, Says Associate Superintendent

ADMIT OUTSIDERS

munition and other plants are luring thousands from Philadelphia schools.
"Unless parents keep children in school future teaching staffs, medical corps and other organizations requiring special training will be seriously

That is the substance of a warning issued today by Oliver P. Cornman, as-sociate superintendent of public schools. High industrial wages, according to Mr. Cornman, are exerting a similar in-fluence among the younger teachers.

9." said Mr. Cornman, "there will be a genuine shortage of teachers. Many o the younger women teachers have a cepted summer positions in industrial and commercial establishments. They are getting higher wages than are paid teachers and will refuse to return to the blackboards and books.

What the shortage will be cannot be determined until the schools reopen.

"When the schools reopen September

but it is apparent it will be considerable Obtaining teachers to fill the vacancies is such a serious problem that for the first time in the history of the re organized school system the doors will be thrown open to outside teachers. "In February we will invite teachers in cities and towns outside Philadelphia to take examinations for positions in Philadelphia schools. Heretofore we

In normal times there are approximately 300 vacancies a year and they have been filled without difficulty. This year there will be a different story."

Effect of war conditions on the teaching force is emphasized in the industrial departments. Mr. Cornman said there ere fifty-four industrial training shops in the cify and twenty were closed be-fore the end of the school year because of inability of the Board of Education to obtain teachers. "Four of the remaining shops," he added, "were conducted by

vomen teachers." Despite the shortage of teachers, the raids on the ranks of children in the upper school grades are causing the most alarm among the city's educators. "It is a situation," said Mr. Cornman. "that must be taken seriously. Our law compels every youth in the city to com-plete the sixth grade in the grammar

plete the sixth grade in the grammar school before putting aside books for a career in trade or industry, but if the flow of boys and girls to our technical schools and colleges is to be maintained something must be done to keep the youths in school after they complete the sixth grade. High wages permit a father to keep his boy or girl in school and in sixth grade. Fight wages permit a tather to keep his boy or girl in school, and in fact, with a little sacrifice, permit him to give that boy or girl a much better education than in former days. In the Newest, Most Attractive Designs, at

**Unequalled Sale Prices** WE EMPHASIZE quantity; for it is natural

that the largest furniture store in America should excel in this respect; also we direct your attention to the beauty and variety of our goods, their fineness of quality and charm of design. Similarly, we place great stress upon the lowness of our prices; for here again you will find us in a class distinctly our own. Also, upon the generous savings our prices represent, not only the cash saving on the first cost, but the lifetime saving brought about by the sound construction and unequalled durability of Van Sciver furniture.

We are showing the largest line of Dining Room Furniture ever assembled in one store in America, it includes every Period Style.

## Now is the Time and Here is the Place to Save on Floor Coverings

The time, because the scarcity of labor and materials is becoming more and more acute and this, of course, predicates a steadily rising market. The place, because our goods were contracted for many months before prices advanced so sharply—and our reductions have been made from the original prices; so that many of them are actually below present wholesale cost.
