VHY NOT BE AN ARMY NURSE?—A LOVE STORY OF THE WAR—CORN CANNING RECIPE—CYNTHIA

AMERICA CALLS HER WOMEN TO HELP NURSE OUR BOYS

Those Who Enroll in the Army Nursing School of Students' **Reserve Receive Training in Military Hospitals Here** in U.S.A. Board, Lodging and Tuition Free

There is first, the butterfly girl. She has tasted the wholesome sweetness of being helpful. But here is the real supreme chance for her to be helpful in as vital a way as the man who gives his all here in the United States d goes to the trenches of France.

When the girl who was once a butterfly, or any girl, considers nursing she must remember that man in France-because he gave up all. She, oo, will have to give up all after a ion-home surroundings, smart up-to-the-minute clothes, leisure, golf hobbles or immediate ambitions. the man surrendered all these. too, and he is willing to make the highest sacrifice.

THERE is the older woman who has no particular ties to fill her life and with enough of money to life and with enough of money to menial way at all with the care of our make her days comfortable. She has an getting up in the morning with- the military hospitals in the spring been getting up in the morning with-out very much depending on her com-ing or going. The idea of marsing should appeal particularly to her. The main division of the student reserve, will fill her life in a way she never dreamed to have it filled. The working girl who has longed

be a nurse can hear the call.

THE student nurses reserve presents without dependents. To enter the army nursing school will mean postponing school will mean postponing achievements in her own line, but went kind of happiness in the world, there are many years ahead for the woman who has not reached thirty-eart than that which comes from five. There is plenty of future time America is calling any American women between the ages of nineteen and thirty-five years. But there are special types of women to whom the There is first, the butterfly girl. She

wounds of America. Every woman not really a butterfly down under ath, at all, and since the war began who enrolls in the reserve releases a graduate nurse for war duty. They cannot be released without this co-

operation. There are two ways to enlist in the reserve-as a candidate for the army nursing school established under the authority of Surgeon General Gorgas, with branch schools in the military hospitals, or to enroll as engaging to hold themselves in endiness until April 1, 1919, to accept assignments to civilian nurses 'training schools

Thus it is seen that the student actually nurses and helps to nurse soldiers from the very beginning, as she receives her training in the military

hospitals, where the convalescent or

working girl who has longed student nurse recruiting station of There is the professional woman National Defense.

Looking Ahead to the Fall A Daily Fashion Talk by Florence Rose

O^F COURSE we all know that the modistes of Paris do not have their

August the originals or the copies are ready to be shown in America. To begin with, we have heard so much about materials—that is, of the lack of materials—that one almost instinctively draws the conclusion that they must be playing a second consideration. But it is quite the contrary, for the material is the first thought, and, regardless of how simple the design may be, the ma-terial of which you make your dress, suit or cont must be the best. There is an almost endless array of luxury materials—this is the first impression one gets when looking at the imported models. The seeming simplicity of the design of the garment is the next. I say "seem-

O modifies of Paris do not have their openings at which are shown the gar-ments for fall and winter until about the middle of August, and that it is usually near the 1st of September be-fore the first of these garments arrive in America. But the American woman has grown very curious of late, and so anxious to lift the mysterious vel which ufacturers have got into the habit of having especially designed models made early in Paris, so that by the middle of August the orbinals or the contex are August the originals or the copies are ready to be shown in America.

But the very fact that she and her mother and Bobble were to have plenty to live on was in itself a protec-tion. They had taken an apartment in a nice part of the city, and Ruth had set-tied down to life at home quite naturally as hundreds of girls all about her were a doing. The first thing that had really

watches, this should make a very nice addition to any boudoir. The first suggestion of a cool day turns our thoughts "clotheswards." I, for one, have always quite planned my winter suit and hat by the end of the very first cool day in August. And such days always suggest walks. Now, of course, for a walk one should have sensible, low-heeled walking shoes. I saw a pair today that would make splendid walking shoes and would be the very "boot" for rainy days or stormy weather a little later. They are a very dark brown, with winged tips and low heels, and are priced at \$4.75. They would make an exceptionally nice every-day

the Editor of Woman's Page:

tented all day, quietly sleeping all night?

It almost all depends on what you feed him, you know. Of course,

you nurse him if you can, but not even love can always make Mother's milk agree with that delicate little stomach. But don't worry.

THERE is a food you can give him that is almost sure to keep him strong and well. It is as near as can be to Mother's milk, you see. It is milk-remember that -but purer and cleaner than you can ever get it in bottles, and changed a little to make it easier for your baby to digest.

To this milk is added just the right amount of cereal, just the right amount of sugar. And it comes to you a clean, fluffy powder in air-tight tins-and you just

add fresh water and boil. This is Nestle's Food. Don't forget the name.

So easy-so simple-so sure to make your baby well and happy.

If he isn't quite well-if you're not quite satisfied with the way he is getting on-put that baby on Nestle's Food-today. Of all the things you would give him-he only wants health now. Nestle's Food will give him that. Send the coupon or a postcard-now!

"What do you mean?" I asked softly. "Oh, you've taken us in cleverly nough, with your little soft ways and our big innocent eyes, but you couldn't onceal it forever!"

"What?" I asked again.
