MAY ENLIST PRISON LABOR

War Policies Board Recommends Its Employment by Government By the United Press

Washington, Aug. 21.-Prison labor may be called to aid the war.

The war labor policies board favors this radical action, and has adopted a resolution recommending Congressional consideration. As suggested, the Federal and State Governments would reach an agreement for using convicts at pre-valling wage rates and conditions, de-ducting for their maintenance from the wages paid. No private contract system would be permitted.

If nothing else, it will probably save you the annoyance of waiting a long time for delivery when you are needing the use of your new automobile.

And it may make all the difference between having a Super-Six and not having one.

With your need for your automobile growing greater and your requirements more severe, you want a car that is going to see you through the entire war if need be.

Super-Six power and endurance make the Hudson that car.

The most grinding tests of cross-country . roads, hill climbs and speedways prove it.

Better still, because of lessons learned in these tests, Hudson engineers have made the Super-Six of today a finer car than ever.

In detail after detail, they have refined the Hudson to a degree that would have seemed impossible when the first Super-Six proved its quality.

The Hudson line of bodies is complete. There are ten different models from which you can choose the type of car you wantand get Super-Six dependability, but-

Prompt action is important.
