MINERS WANT WAGE INCREASE

Hold Operators Can Afford It as Well as Bonuses

By the Associated Press Washington; Aug 22—President Hayes, of the United Mine Workers, other national officers and two repre-sentatives from each mining district met today at the American Federation of Labor headquarters to formulate de-mands, it is understood, for a flat wage for coal miners.

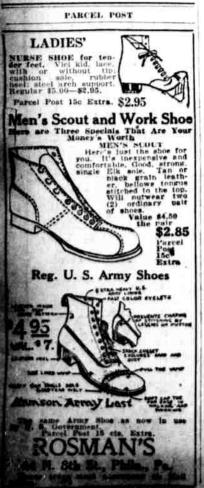

Fuel Administrator Garfield recently ordered discontinuance of the practice of operators competing for mine workers of operators competing for mine workers by the payment of bonuses. The mine workers, it is said, now propose to ask a wage increase on the theory that if the operators could afford to pay bonuses they can pay higher wages.

weak spot in its whole make-up. Simply be-

cause the utmost pains have been taken to make the Fulton a truck which will deliver real service, any time, anywhere, under any conditions of road or load.

Tire economy is secured in the Fulton by a scientific distribution of weight; long, extra heavy springs and the adoption of the internal gear drive axle.

The Fulton factory is the largest in the country devoted exclusively to the manufacture of a ton-and-a-half truck. All the efforts of the entire organization are concentrated on this one model.

The economies of such large scale production are reflected in the low price of the Fulton-\$1620, f. o. b. Farmingdale, Long Island, N. Y.
