G. O. P. SENATORS ASK **VOTES FOR SUFFRAGE**

Conference Called for Early Consideration of Pending Resolution

> By the Associated Press Washington, Aug. 24.

Republican Senators, in conference today, adopted a resolution asking their membership to support the pending woman's suffrage resolution before the Senate and urging its adoption at the earliest possible date.

The action was proposed by Senator Fall, of New Mexico, and was taken on a viva voce vote of about thirty Sen-Wadsworth, of New York, who opposed the suffrage resolution, emphasized that the conference action calls merely for a vote, without binding any Senator's three action.

The resolution follows:

"Resolved, that the Republican members of the United States Senate in conference urge that the consideration of House Joint Resolution 200, proposing an SPROUL BEGINS FIGHT House Joint Resolution 200, proposing an United States extending the right o suffrage to women should be proceeded FOR GOVERNOR'S CHAIR years ago, a few days after his ninewith at the earliest possible moment.

"Be it further resolved that we shall insist upon such consideration immed lately after disposition of the pending unfinished business (the national war time prohibition bill) with all amend-ments thereto, and shall also insist upon a final vote on Houe Joint Resolution 200 and all admendments pending or to be offered thereto at the earliest pos "Provided, that this resolution shall

not be construed as in any way binding the action or vote of any member of the Senate upon the merits of the said woman suffrage amendment."

Republican senators regard their action as placing upon Democratic mana-gers of the woman suffrage resolution the responsibility for any further delay in securing a vote on the resolution, which has been pending since it was adopted by the House last January. factions held off action at times when it developed that each lacked a few votes of the number necessary to At present, according to polls of its

friends, the resolution probably would be defeated by two or three votes. The death of Senator Gallinger, of New Hampshire, a strong advocate of the resolution, further weakened the strength of its supporters. Those in charge, however, have promised that it will be brought to a vote certainly before the November elections.
