I have a friend of long standing who makes corn bread, but her five children won't touch it, and wheat bread is put on the table for them. She became very angry with me when I told her that there was just as much reason for her children to eat things they didn't like as any one east. She makes cocoa and lemonade and sweet he it, then permits the children to put in as much more as they like; makes a large cake with thick frosting which the children eat up in an hour or so (in fact, they eat nothing else while the cake lasts), and then she complains because she cannot get all the sugar she wants. She got twenty-five pounds for preserving, made jam and jelly and let the children eat it up at once, with never a thought for next winter Still she is very bitter because her boy is in the last draft. Now, mind you, these people are Americans for generations. Can't you take it up on the Woman's Page? A. K.

Dear Cynthia—I am a young gir! theught good leeking by my friends, but very bashful. I spent my vacation in the country and met a very nice young man. He paid a great deal of attention to me, and was much kinder to me than the other girs.

He often gave me flowers and anything I asked for or he had he gave me, but he ignored the other girls. He always chose me for his partner. But whenever he spoke to me my bashfulness prevented me from answering freely. He often questioned me about my bashfulness and habit of continually hiushing. But I could not reply. When we parted he gaked if he might see me again and I told him 'yes.' After a month I saw him about six yards away from me. I did not look at him, but I feel sure he saw me, but he never spoke to me and I was very much disappointed be-

In the silence that followed, Azalia Holton sat absorbed in thought. She knew Bryant Churchill only as she recalled his features on richly toned lithographed music sheets. He was a composer. He had never been seen in the village since the loss of the ocean liner on which his parents had taken voyage in quest of foreign property. Then, as a dreamy boy of five, he had been left in the care of a relative somewhere to be properly tutored. The coat has a large collar of seal and a band of the fur marks the pocket open-

The homestead of Jonathan Holton adjoined the magnificent estate of the Churchills, from the time of whose decease he had exercised an oversight of the premises which was a sympathetic contribution more than anything else.

Azalia Holton had been born into the very atmosphere of isolated Churchill Manor. She had pulled the sweet grass in her babyhood, had romped the fields and woodlands in her pinafore, and had lost her heart as a maiden in its alluring grandeur and charm.
