

SPEEDING UP ON SHIPS

SHIPYARD BOXING FAN TEACHES BIBLE CLASS

Charlie Black Proves It Isn't "Cussing" That Makes a Man Popular

There are not many of us like Charlie Black. This man is a quartermaster drifter at the Cramp shipyard. He is usually referred to in the yard as "Blackie, the strong man," and you would naturally expect to meet a Sardo or one of his pupils.

Charlie does not measure up to that in real physical strength and you wonder how he ever got the name. He never sought such distinction. In fact, his ambition is and always has been simply to be "Blackie," a God-fearing man among real men and a good sport without. The crowd's verdict is that he has made good.

Black started in at the Cramp shipyard twenty or twenty-five years ago. It was his first job. He had been brought up in Sunday school and he stuck to it and still lives up to its rules. He leaves his Bible at home for the children to read and goes to the shipyard to live the life that pleases him and helps others.

Sunday he has a Bible class. Monday noon he may be seconding some fighter in the boxing exhibitions in the yard. Tuesday noon may find him working out plans for some big sporting event for the shipworkers or arranging a theatre party or some other pastime for them.

Although he finds genuine pleasure in mingling with the men at work and at play, he does not use "cuss" words. When he hears them swearing he is apparently deaf to it. When he takes leave of the boys on Saturday he goes back to his Bible and prepares for the morrow's lesson.

Charlie was one of the seconds in last Tuesday's boxing exhibition in the shipyard. He looked the part in almost every respect. He was first in the ring at the end of each round to get the towel working, and the fans had a great deal of fun with him during the three rounds. Naturally, he is very popular and everybody in the plant will swear by him. In fact, they all say that not even a sporting event there would be complete without "Charlie, the strong man." He is certainly strong with that crowd and probably that explains the title. To look him in the face is to see at once that the man has taken the very best care of himself all his life.

SHIPMEN'S SCHOOL TO OPEN

Pusey & Jones Men at Wilmington Will Benefit

The mechanical and marine schools maintained at the Pusey & Jones Wilmington plant will open about October 1 with the largest enrollment they have yet had, it was stated today.

These schools are open to all employees and the officials urge everybody to take

advantage of the courses. The classes are held four evenings a week, from 7 to 9 o'clock. The mechanical school is under direction of Charles Spiegelhalter, assisted by Messrs. Booth and Snyder. In this school mechanical drawing, mathematics, machine-shop practice and blueprint reading are taught.

The marine department is headed by A. E. Oysterman, marine superintendent of the plant. As assistants Mr. Oysterman has Messrs. Murray, Lenthoff and Ketterer. Shipfitting and blueprint reading are taught there. They use the hull-construction blueprints in this school.

A new system is being installed at the Wilmington plant of the Pusey & Jones Company to distinguish the classes of workmen one from another. A series of numbers will be used to take the places of badges now worn. These badges vary in color and design and yet there has been some confusion.

The new plan, it is said, should simplify the matter, so that one should be able to tell a man's class by the number on his work tag. The plan is being put into effect in several days getting ready for the start.

The fire commissioners, fire captains and fire marshals of the Pusey & Jones Wilmington plant are holding a meeting at the Fire Chief McGowan has one that is gold to the fire department. Some of the back pay recently handed over at the Gloucester plant of the Pusey & Jones Company is being spent on parties. Charlie Black is taking a party of friends to Brighton beach for a few days. Eddie Harbaugh, of the Pusey & Jones Company, stopped his driver to get a cigar and the driver, in a fit of anger, lit the cigar. This was poor consolation for the smoke, though.

The Cramp Shipyard was closed entirely yesterday for the first time since New Year's day for the first time in all that period. Sunday is usually a busy day at this plant, and with Sunday joyriding cut out is expected to join the automobile sports are expected to join the Sunday forces to forest their automobile trouble.

GUARD'S VICTIM U. S. CITIZEN

Ellis, Killed at Shore, Has Three Nephews in Service

Trenton, N. J., Sept. 3.—Thomas Ellis, 721 Mulberry street, this city, who was shot and killed by a coast guard at Ocean City, N. J., last Tuesday night was a naturalized American citizen and has three nephews and a nephew-in-law in the service of the United States.

Business reverses about a year ago followed shortly afterwards by the death of his wife, affected his mind. He was an inmate of the State Hospital for the insane at Trenton for about six weeks, but improved under treatment, and as he was perfectly harmless, he was discharged. He did not leave Trenton until last Thursday morning and intended to spend a week or so at the shore.

Relatives here say that he probably failed to grasp what the guard wanted of him, but did not believe that he tried to run away or attack the latter. He was always good natured, even when his condition was worst, and would cheerfully obey the orders of the hospital attendants, relatives declare.

One of his nephews is now fighting in France, the nephew-in-law is at Camp Pike, and the other nephews are at the Pelham Bay naval station.

DOCTORS AID JUDGES IN WORK OF JUSTICE

Municipal Court Here Has Instituted a Department of Diagnosis

The science of medicine is to be used henceforth in the administration of justice in Municipal Court.

A department of diagnosis, formed of the various medical agencies of the court, has been placed, tentatively, under the direction of Dr. Charles B. Penrose, with whom will be associated several other prominent physicians, among them Dr. D. J. McCarthy, Dr. Charles S. Petts, Dr. S. W. D. Ludlum, Dr. John C. DeCosta, Jr., Dr. Thomas A. Shallow and Dr. J. M. Baldy.

Diagnosis is the great need for proper administration of justice in the cases which come before Municipal Court, according to the officials of the court. These cases include child delinquency, abandonment of children, non-support, incorrigibility, street walking and crime. As a prerequisite to intelligent probation work, medical and psychopathic diagnoses are indispensable, say physicians.

Restoration of the "misfits of society" who come before the court is planned through the organization of a staff of consulting physicians who will visit the department of diagnosis and examine such patients as are selected by the court's physicians.

Co-ordination of all medical work of the court under an able director devoting his entire time to this division is planned. Administration quarters will be at Twentieth and Summer streets.

CAUSED FIRE SCARE

Alleged Yegmen's Flashlights Thought to Be Flames—Hearing Today

John Brown and Edward Kelly, who were arrested late last night after causing a fire scare in the Hotel Windsor, will be arraigned in Central Station today.

The men were found hiding in the offices of the Toledo Scale Company, on the ground floor of the hotel building, in Filbert street, near Twelfth. They are alleged to have been attempting to open the safe. Pedestrians seeing lights, said to have been the flashlights used by Brown and Kelly, sent in a fire alarm. Many guests fled from the hotel scantily clad.

Truck Seriously Injures Boy

Sixteen-year-old Leo Maco, 1948 Denno street, was knocked down by a motor truck at Germantown avenue and Bristol street. The boy crossed the street behind a street car and walked in front of the truck. He is in St. Luke's Homeopathic Hospital with a fractured skull. James Doyle, of Mercy street near Thirteenth, driver of the truck, was arrested.

FEAR LOSS OF TOMATO CROP

New Jersey Farmers Send Out Cry for Help in Fields

"Help save the tomatoes," is the basis of a call sent out today to women and girls and men through the Federal employment bureau in New Jersey. At least 1500 persons are needed immediately on the farm and in the canneries in the southern part of the State. Women and girls who were employed during the summer on Jersey farms have mostly returned to their homes to resume teaching or attending school. This has left the farmers and canners so short-handed that it is feared that a great part of the tomato crop, a great part of which has been sold to the Government, will spoil.

Italians Upset Enemy Boat

Rome, Sept. 3.—The War Office communication follows: "The artillery carried out concentrations in the mountain area today and on the Pieve upset a boat with enemy troops who were attempting a surprise attack. At Sicily and on the Anago plateau enemy parties were repulsed with heavy losses."

Barons in Bunches

Tam says: "There are more Barons in Gairmany than there are second loots in the British Army."

"Suppose I held a Baron to ransom?"

"And suppose I got through a letter to his family *slosh* say:—'Dear Sir or Madame: I have found a baron bearin' your name and address. Kindly send ransom for same in strictest confidence.'"

"What d'ye think I'd get? A ten-cent postal stamp?"

"Then to show how easy it is Tam o' the Scots proceeds in his airplane to go out and get him a Duke."
