**MAKE ALL FIRES LITTLE FIRES**

Your insurance wouldn't rebuild your plant

Property values have increased—so the insurance wouldn't cover the cost of rebuilding, even if you could find the labor to do it.

That's why it's better to guard against fire. And while they do it, Globe Sprinklers pay for themselves out of reduced insurance premiums.

## BRITISH FLIERS BAG TWELVE FOE PLANES

Destroy Eight—Six Enemy Balloons Also Brought Down in Flames

By the United Press  
London, Sept. 3.

Low-flying British airplanes are shattering enemy troops, bombing German transports, bridges and railway connections and generally assisting Field Marshal Haig's infantry columns in their advance in France.

This is shown by the latest aviation intelligence issued by Haig.

"Despite the opposition of the enemy's machines," says the statement, "more than 1000 photographs were taken by our airmen Sunday and many reconnaissance were effected. Contact with our advancing troops was closely maintained. Our observation balloons were constantly pushed forward. These, with our artillery patrols kept our batteries informed of numerous targets which were successfully engaged.

"Throughout the day the area in which the Germans were entering was searched by our low-flying airmen, who everywhere attacked enemy troops and transports with bombs and machine guns, their fire causing heavy casualties and much confusion. Bridges and railway connections were heavily bombed in the enemy back areas.

"In the air fighting eight enemy machines were destroyed and four were driven down out of control. Six hostile balloons were brought down in flames by our planes. Eight of our machines are missing.

"In the following night bombing was continued both in the zone immediately beyond the battle line and further east. A German airplane beyond St. Quentin was heavily attacked and direct hits were observed. We lost one night bombing machine.

"During the twenty-four hours more than thirty-four enemy bombs were launched on different targets."

## CONSTABLE STOPS EDISON

But Wizard Has Good Reason for Motoring on Sunday

Columbia, Sept. 3.—Thomas A. Edison, the inventor, while on his way through this borough on Sunday, was stopped by constable Frank Blair, who asked him his reason for riding in an automobile on the Sabbath, according to the constable's report.

Mr. Edison had no difficulty in satisfying the officer that he was going contrary to the spirit of the order.

Mr. Edison's machine was the one of the many stopped by the constable. Mr. Edison is very deaf and the young man sitting beside him, thought to be his private secretary, who did the talking for the party, thought it very strange that they had been stopped and questioned on the purpose of their journey on the Sabbath, and did not occur to them in New Jersey.

## HERMIT OF BASEBALL PARK SUSPECTED AS DRAFT DODGER

"Blond-Beard," Nabbed in Midst of His Drive on Bread and Milk, Will Be Shaved to Determine Age

"Blond-beard," hermit of the baseball grounds, is in jail.

Just as the dull gray dawn was ripening into sunlight, "Blond-beard" crept out of his lair under the grandstand in the abandoned ball park at Sixty-seventh street and Elmwood avenue and started an offensive on the food in the neighborhood.

On the docksteps in the street he saw a score of milk bottles, standing like silent sentinels. Beside each was a loaf of bread or a block of butter.

From door to door "Blond-beard" fitted quickly. He had outflanked half a dozen bottles and as many loaves when he suddenly collided with Sergeant Berch, of the Sixty-fifth street and Woodland avenue police station.

But he recovered quickly and ran out Paschal avenue, munching bread as he ran. When he was half a block in the lead he even paused to drink some of the milk from one of the bottles. Then he sat down and surrendered.

The police suspect the prisoner's long yellow hair was cultivated to make him appear beyond military age. He was sent to the House of Correction, where he will be shaved and scrubbed. Should he later lock young he will be turned over to the Federal authorities as a candidate for the trenches.

## TUNG HUA-LUNG HERE AUG. 8

Murdered Chinese Educator Visited Institutions in This City

Dr. Tang Hua-lung, former Minister of Education of China, murdered by a fanatic fellow countryman at Victoria, British Columbia, Sunday night, spent two days in this city during the early part of August.

Dr. Tang was touring the United States studying educational methods and was also said to have a secret mission to the State Department. He emphatically denied this report, however, when seen at the Bellevue-Stratford on August 8 and insisted he was making the trip to this country at his own expense.

While in Philadelphia he inspected the University of Pennsylvania, Independence Hall, the Betsy Ross House and other points of interest. The present government of China, he said, was very favorable to the Allies, and he predicted that since come true, that the Chinese would take an active part in the Siberian campaign against the Bolsheviks.

Dr. Tang was killed by a Chinese barber, who immediately committed suicide. The former Minister's secretary told the police that Doctor Tang had been warned not to pass through San Francisco, and insisted he was much opposed to the opium traffic, his stand on that question, his secretary said, having caused the enmity of several powerful "Tongs."
