

THE PATRIOTISM OF OUR WOMEN CARRIES THEM TO THE MUNITION FACTORY AND THE FARM

THEY SEE THEIR TASK through to a finish, these "orchard-ists," even to loading the brimful baskets of fruit aboard the city-bound trucks, as shown above.

OVER JERSEY WAY the peaches are all but crying to be picked, which explains the presence of these young women orchard hands, who have come from points far distant for this employment. Lack of help has placed the big peach crop in great jeopardy.

DOWN AT CARNEYS POINT the "powder girls" give a great deal of attention to keeping themselves in the best physical trim, for the work of manufacturing guncotton cannot be called easy.

NEVER BEFORE in their luscious history have the Jersey peaches had as "pickers" persons quite so commensurate with them in fairness as is the case with this year's suffragists.

AFTER A HARD DAY in ... County, these patriotic farm workers "come back ... at Bridgeton, N. J.

IN THE REALM OF CALISTHENICS the "powder girls" are just as enthusiastic, if not so talented, as they are at making guncotton.
