If you must be a Spendthrift Spend it on Thrift Stamps. SECRETARY of the TREASURY, McAdoo, who is responsible for collecting the "dough" to supply the requirements of the "Doughboys" on the firing line—expressed my sentiments the other day in New York when he said:

"I have no patience with the spendthrift today because the Nation is in need of every dollar it can get. The man who hangs on to his dollar regardless of what the other man may say, is the man who is helping to win the war—and is doing almost as much for his country as the man in uniform."

I don't care how much money you've got, this is one year when you can't afford to pay a dollar or two for a flossy label which simply means you've paid more than is necessary to get all you want in a hat. I'm going to maintain my quality, and just as long as my present supply lasts, all my hats will be one price—\$2.85.
