

THE GIRL YOU USED TO KNOW IS A SURPRISE IN WARTIME

At Least You Thought You Knew Her, but the Real Test of Character Comes Now—Women Who Are Helping With All Their Hearts to Win in the War

WAR is a queer test of a woman's character. It is amazing to meet some one you have not met for a long time and find out how she is rising to meet it.

At least you thought you knew her, but the real test of character comes now—women who are helping with all their hearts to win in the war.

Not only mean, they are negligible as counting in wartime effort. Helping to win the war means systematic food saving.

PEPPERS AND CELERY CAN BE PUT IN BRINE

Process Given Here—To Be Used in Salads, Pickles and for Stuffing

Green peppers and celery can be preserved for future use by brining. If properly done peppers so prepared can be used as substitutes for fresh peppers in pickles or salads.

Remove the stems and seed and pack down into a water-tight, non-metallic receptacle, such as a keg, barrel, crock or glass jar.

CELERY can be preserved in the same manner and after freshening is excellent for soups, creamed celery and for flavoring purposes.

THE DAILY NOVELLE

Weyland's Military Day By Marion C. Teesam

THE little town of Weyland was certainly in a fever of excitement and why not? Tomorrow was to be "Military Day" and all the fellows who had left town for the service of Uncle Sam were invited home to be treated as honored guests.

Perhaps I have not clearly explained my position, but I do know that it is impossible that the gentleman-shipbuilder would have become so impressed as he that he offered me a job.

Why, Ruth, this is no time to be thinking of petty quarrels, said her mother. If you are to get on with you, you must get on with you.

The next day dawned fair and warm and Ruth got up with a happy feeling. Her heart was full of gladness.

It was during the parade that Ruth's heart beat rapidly, as she saw in the third formation the tall figure of English Robert Foster.

It was a long time ago, when she was a little girl, that she had first seen him. He was then a young man, who immediately turned and looked up into her face.

After much teasing, Ruth was persuaded to go to the dance, but she took pains to keep out of Bob's way.

When his eyes met hers, she felt a strange thrill. It was the first time since she had seen him that she felt so close to him.

Bishop Sleeves Have Come Back

A Daily Fashion Talk by Florence Rose

These are the best of the new sleeves, all of them made on the lines of the old-time popular bishop. The one on the blouse worn by the young lady illustrates the plainest model.

THE WOMAN'S EXCHANGE

TODAY'S INQUIRIES: How are the women who volunteer to help in the most important part of a war effort? What is the most important part of a war effort?

YESTERDAY'S ANSWERS: A vitally patriotic service for a woman with any leisure time on her hands, these days is to help either in the home or in the office.

Do not think that I have been introduced to a young man a year ago and had no occasion for meeting him since, unless in a passing acquaintance.

PLEASE TELL ME WHAT TO DO

By Cynthia

To the Sailors: Dear Cynthia—Just a word to "The Girl With a Memory" and my three shipmates, Alice, Chief, J. M., and "An American Girl."

Your letters were very interesting and I am going to relate a true happening and you can answer me through these columns.

Well, after being away from the States something like six months we returned to New York on a ship.

As this girl made the advances and the boy is evidently in the direction of not seeing that you have any cause for jealousy.

Will Be Generous: Dear Cynthia—A few days ago a girl for your answer to a letter I sent you signed "Disappointed." I wish to tell you that I never saw her again.

Do Not Think About Him: Dear Cynthia—I have been introduced to a young man a year ago and had no occasion for meeting him since.

Be Sure That the Player-Piano You Buy Is AEOLIAN-MADE

Everything there is one standard by which all others stand or fall. In the production of Player-Pianos that one is Aeolian.

The Aeolian Company, pioneers in the industry and exclusive owners of the most important patents in the construction of Player-Pianos, have established and maintained the highest attainable standard in their products.

But the Aeolian Company have gone further. They have succeeded, through great volume manufacture and scientific management in producing the Francesca, a player-piano embodying their wonderful device of control and made under their most rigid standard.
