WIRE SERVICE RATES

Postmaster General Names **Committees to Prepare Re**vised Schedules

By the Associated Press Washington, Sept. 12.

Standardization of telephone and telegraph rate schedules throughout the country is about to be undertaken by Postmaster General Burleson, Commit. tees were appointed today to study the services and their rates and make recnendations upon which revisions will be based. David J. Lewis, member of the Post-

master General's committee directing the Government control of wires, will be in charge of both investigations. On the telegraph rate committee with him will be John C. Wellever, vice president of the Western Union Telegraph Company, and Edward Reynolds, general manager of the Postal Telegraph-Cable ompany. Harry B. Thayer, vice president of

the American Telephone and Telegraph Company, and Charles Y. McVey, presi-dent of the Ohio Telephone Company, are the committeemen for the telephone

telephone and telegraph companles were authorized today to file claims with local draft boards for exemption from military service of "absolutely in-dispensable" employes. The companies also were notified that to stop embar rassments to the service reported from various sections where employes have quit their places without notice, often to engage in nonessential work, all employes leaving the service should be re quired to give two weeks' notice.

Americans Prepared

Continued from Page One

tion, plenty of troops. It is a grand show, this first American battle. The attack against the salient was of such a nature that two hard drives were necessary. One of these was between Pont-a-Mousson and Apremont fair to state that we had not enough and the other south of Fresnes, on machines to achieve it, but owe credit the west side of the salient. Both these to French aviators. drives were made by Americans. On the west side the attack is progressing most favorably.

The German line in this salient is held hard and fast by trenches at points such at St. Mihiel and Mont Sec, but in the places chosen for the entrance of our two wedges on opposite sides of the triangles the enemy has three lines. The first held sparsely by outposts, the second, by small detachments and the third is held strongly.

Passed First Two Lines

We have at both points of heavy time. attack passed the first two lines, meeting surprisingly little serious resistance. The first batch of 100 prisoners was reported at 7 o'clock and many smaller numbers came in up to noon. No strong attack has been launched on the tip of the sallent or against Mont Sec, but progress at other points

Already there are indications that the Germans are getting out of the tip of the salient. Our troops there are moving forward cautiously, just jogging the Germans along, according to plan. As far as the withdrawal of the

enemy is concerned that was no easy matter, for every foot of the whole
