Private De Roy Mark's Letter Home Brimming With Optimism

"NOBODY CAN WHIP US"

Intimate Discriptions of Conditions at Front Given in His Letter

The unchangeable optimism and en thusiasm of the American troops h France is reflected in every line of a letter from Private De Roy Mark, of 103d Engineers, to his father. Adolph Mark, 2207 North Broad street

"Tell the world for me, dad, nobody can whip this man's army," he said. Young Mark had just come through the severe fighting along the Marne where the engineers had not only done nderful work in their own line, bu had grabbed their guns and played a gallant part in repeiling a German counter-attack, and had reached a base camp for a brief rest when he wroth the letter to his parents.

After explaining that he had not had his clothes off of been able to wash his

face for more than a week, he said : "I Hells,' and I haven't known what is to share or sleep four consecutive hours in ages

"I have been driving a motortruck right up to the front line and back again at all hours of the day and night. Up near the front, you know, it's not according to Hoyle to have a light at night, so even when I did have a few minutes' leisure I couldn't take advan. tage of them.

Some awruit nght 1 have seen singe. July 15 for one month straight. I received your letters dated July 3. 13 and 22, but no Ledger since June. Well, mother, just about two hours and I bet there were about 200 shells dropped all around my wagon. They were trying to stop me from getting the eats to the boys, but God was with me and not even a scratch was made: so you see what one will do. We have God always with us wher-er we go, so please, mother, keep on proving for us boys and well come on proving for us boys and well come on the there were about 200 shells with me and not even a scratch was made: so you see what one will do. We have God always with us wher-er we go, so please, mother, keep on proving for us boys and well come on the they don't take any more away. The they don't take any more away. The sceen awfully hot the last four long.'s We get about ten minutes for long.'s We get about ten the for days and I haven't had a bath for one we have them on the run. The you could see the place where I monke around me and fireworks over beak as bays and fireworks over beak bays and fireworks over beak

is plain to all our fellows they must make the Fritz behave ince their baths are most infrequent and they've little time to shave. So they scrap like thinderation As the foe they keep on smiting All thei blows persist in acying That the boche can't lick a nation Where the boys are strong on fighting And their mothers keep on praying.

Good News for Home Folk

"There were two German women cap-tdred in the woods dressed in uniform. They had been operating machine guns against us. They were taken to head-quarters. There sure are a lot of things over here that I never would have be-lieved until I saw them myself, and the is one game. Mrs. Morris Heston, 1125 West Silver street, has received the following letter, dated August 14, from her son, William C. Heston, wagoner, 109th Infantry Supply Company, somewhere in France
