The "How" of Advertising and Salesmanship

Those higher up have written books on the "why" and the "what," but it takes the experienced teacher to make clear just HOW to do it. It is classified as an "essential" by the government, but we haven't room here to tell you all the "essential" features of our course. If you are siming for a better position and increased pay, it will be your advantage to know the scope and character of our work in this

#### Germantown Academy Plans for the Best Year in Its Long History

Let your boy join us in our earnest work during this important year.

The departments range from Kindergarten through College preparatory.

We train boys thoroughly for college entrance. School traditions and standards are a real inspiration to Academy students, for since 1760 we have been helping boys-many of them well-known in State and nation.

The Kindergarten, new this year, is for little girls and boys four and five years old. The Liberty Tadd System supplements the work. This department has its own building and grounds adjoining the Academy.

Two athletic fields, hot and cold showers, etc. Military training included in gymnasium work. You can see Mr. Osbourn, the headmaster, any time during

the day-phone "Germantown 4440."

## War Training for Women

A Call to Service-Trained Woman Secretaries are needed to speed Government Work

One of the Government's great needs is for trained secretaries and statistical workers. To help supply them, Drexel Institute, in co-operation with the U. S. Civil Service Commission, has prepared special training courses.

Graduates of these courses will be eligible for certification to posi-tions under Civil Service. The certificate of graduation will be the basis for rating; no further scho-lastic test will be required.

A four months' intensive course for High School graduates who are qualified in Stenography and Typewriting and have had one year's experience in busi-pers.

A one year's intensive course for college graduates. Specific technical and statistical secre-tarial training of high grade.

Drexel Institute's special war training courses for women have been approved by the United States Civil Service Commission.

Students who enter these courses will be at once in training for their country's service.

Military regulations will be observed.

Enrollment will be limited and applicants carefully selected. As courses begin October 7, we urge you to write at once for complete Bulletin and enrollment blanks.

The Nation needs you.
