The TRUE MEANING of VALUE

VALUE—not what you put into the clothes, but what you get out of them-not what you pay, but what you're repaid-that kind of value means satisfaction.

In the old days, when a man bought a suit of clothes for \$15.00 or \$18.00 he wasn't especially concerned about it-\$15 or \$18 wasn't a whole lot of money, anyhow. But nowadays if he has to spend

\$30.00 or \$35.00, he wants to know what he is getting for that much investment. This is one big reason why we are doing such a tremendous early fall business-thinking men are spending their money where they get value.

E are not entirely sold out on new cars, but it seems necessary, in order to successfully carry out the war program, to curtail further manufacture.

We must have something to sell, and if we cannot get new cars we must fall back on used cars in order to maintain the splendid establishment we have built up to take care of Overland patrons.

Though we have delivered in our territory nearly 3000 new cars since January 1, 1918, we have never been able to trade in enough Overlands and Willys-Knights to satisfy the resale demand.

We have traded in practically every make of car as part payment for new Overlands and Willys-Knight cars. We have learned - by bitter experience sometimes-the used cars that are worth while, and those that are not.

This Is Our Plan:

We know motor-car values, and we have decided to buy used Overlands and Willys-Knights-and nothing else.

The useful life of an Overland or Willys-Knight car averages six years. We have been selling them for eight years and know this to be true.

Many now in daily service have been in use eight or nine years, but the best years were the first six.

So we will buy for cash any Overland or Willys-Knight that has received reasonable treatment and is not more than six years, old, at the following prices:

We will pay the list price of the car less a fixed per cent for each year that has elapsed since the car was shipped from the Willys-Overland factory, an average deduction of 16 2-3% per year over a six-year period.

This offer is made only to original buyers and is subject to withdrawal without notice.
