

A Message to INDUSTRIAL PHILADELPHIA

The Liberty Loan Committee requests that all manufacturing and wholesale concerns—executives and employees—enter their subscriptions through the trade Division to which they have been assigned. Allied trades have been grouped together. Special Committees have been appointed by the Federal Reserve Bank to cover all such concerns.

In the Third Loan the groups given below subscribed \$78,500,000. Each group will be given a quota to be raised in this Loan. Make your group the first to reach its quota—the first over the top. The respective chairmen will give you full information regarding the details of the Liberty Loan campaign. Telephone them. Help them to help you.

The following list of Industrial Committee Chairmen is published for the guidance of the various business interests. If in doubt where your business belongs, telephone at once to the Industrial Committee headquarters—Walnut 6230 and classification will be given
