## You Gave Your Baby Life

### Now give him health:

Little Mother, perhaps you can't nurse him. Of course, you would if you could-but even love can't always make mother's milk agree with that delicate little stomach.

But don't worry.

There is a food so like Mother's milk that your baby will grow rosy checked and content when you give it to him and it begins to give him health and strength.

This food is really milk. Always remember that. Purer, cleaner milk than you ever get in bottles, changed a little so it is easier for your baby to digest. And with it is cereal—just enough—and just enough sugar—so that for all of fifty years, babies have been eagerly reaching for it, thriving on it, making their Mothers' hearts light with happiness as they grew in health.

111-

THIS is Nestle's Food.

It comes to you a fluffy, pure powder to which you just add fresh water and boil-and then you are sure of your baby's health.

So simple-so sure-so easy -and so good for that dimpled little body, that fast-growing brain, those clutching fingers,

those bright little eyes! If you send the coupon or a postcard. enough Nestle's Food for 12 feedings will be sent you free, with a 96-page book on babies care, by specialists.
