# Only Two More Days to Save Philadelphia From Disgrace!

## Two Policemen Unexpectedly

each of them got a thousand dollar Liberty Bond subscribed yesterday by a little tact, good nature, a smile, and no arguments.

Mr. Mayor and Director of Public Safety, considering the urgency of the Liberty Loan sales, could not the good-looking policemen on the streets be free

Today, Tomorrow and Next Day

and do more than lift and lower the "go" and "stop" signs at the crossings by allowing them the chance to hold subscription blanks for Liberty Bond subscriptions?

They could take care to regulate the congestions of travel, and help out on account of the President to have the loan all taken at this particular moment.

Mr. Postmaster of the City and the letter carriers, Mr. Motor Car Conductor, Mr. Clergyman and Priest, while the churches are closed, could not you take on an extra duty for the three days left of the Liberty Bond campaign?

Thousands of short-hour employes all over the city have early time and afternoon hours of daylight in which they could draw up neighbors and friends who often do good things at the last moment.

None of us is willing to leave

the President of the United States in the Lurch When He Has Requested Red-Hot Service for the Fourth Liberty Loan

The tremendous courage of our sons and brothers, driving on to victory, in the face of extra revengefulness of disappointed expectations, and extra perilous warfare, may well inspire the home-sheltered, the aged, and even the youngest, to enlist with all their time, strength and influence for these last three days, to win a home victory.

Sick people and nurses are excusable.

Respectfully submitted,

[Signed] *Joe Proamate*

They will make charming gown trimmings, and as they come in two fashionable shades of blue, a soft, rich taupe and black, they will be admirable for use with the new Winter gowns and blouses.

## Imagine an Almost Block-Long Avenue Inundated With Color—The Fine Colors of Oriental Rugs

Picture to yourself a sea of color spreading out at your feet, rising high on either side and flooding a great area with richness, warmth and picturesque charm.

This will give you an idea of the remarkable exhibition and sale of Oriental rugs on the seventh floor in the central section of this building.

It is a gigantic picture, full of antique association and eloquently symbolic of the ancient supremacy of the Eastern peoples in the coloring and weaving arts.

Do you want to see this great picture, significant as it is of the art of four thousand years? We hope you will like it. Everybody who has seen it has been very much pleased with it, to say the least, and the feeling of most visitors is one of delight, real delight, for it is indeed a somewhat thrilling sight.

And yet the most remarkable feature of this exhibition and sale is not the beauty of it, but the fact that at a time of this kind it provides an abundance of authentic and dependable Oriental rugs of practically all weaves at considerably less than their acknowledged market value today. There is truth in that statement, but no poetry.

Nearly 1000 carpet-size rugs are here at \$150 to \$3500, according to size, color, weave and texture.

At least 1500 small and medium sized rugs are shown at \$18.50 to \$85.

It is a wonderful show and a wonderful opportunity.

## Furniture to Make a Good Comfortable Living-room at a Good Saving

For the long Winter nights the living-room needs to be made as comfortable and inviting as possible. This is one of the trite things which everybody knows, but not everybody lives up to it.

Our latest purchase of furniture brought us a lot of very desirable and well-constructed

pieces for living-rooms, all of them matchable into suits and all of them marked to sell for 25 per cent less than they should now regularly command on our own floors.

It possesses the first essential of good living-room furniture, that is, it is lastingly con-

structed, being made on the mortise and tenon principle. The style follows no set type, but the influence of the William and Mary period is manifest in it.

A small number of pieces in this particular lot, however, are made on Mission lines.
