er shoe comfort is of para.

mount importance.

# From Stolen Machinery

London, Oct. 17.

Dr. Christopher Addison, minis ter without portfolio in charge of econstruction, in a speech yesterday, said the Germans had re moved mills and machinery whole sale from France and Belgium into Germany or had destroyed them. counting upon the advantage which this would give the German textile industry after the war.

"But," he added, "there is the question of raw material. The burden of the restoration of destroyed muchinery must fall on those who destroyed it, and it will be within from Germany cotton and other goods until the enemy has made good the machinery destroyed."

ish artifiery could completely dominate the tawn, but they held to their inner

ous damage.

U. S. ENGINEERS IN BATTLE

Storm Hill in Argonne, Hurling Germans Back

With the American Arms Northwest ent from near Le Cateau, and they would and they met with brilliant success They stormed Hill No. 299, the keyst he able to stand there until Foch die-tates to them their next move.

The enemy remains under the impera-on the front northwest of Verdun, burl-

The enemy remains under the imperative necessity of shortening his front, and this he has been prevented front doing because his line is continually being extended by the salients which the Allies have created in it. Until he succeeds in shortening it he must continue to retreat.

Foch has very skillfully defeated the obvious attempt of the enemy to force the British to destroy Lille with their guns.

More than ten days ago the tlermans abandoned their positions west and porthern slope.

Red Cross Shoes are sold at Frank & Seder's at prices not over \$12.00—the new Government regulated maximum price. Even before this Government decree, we invested 90 percent of our Red Cross Shoe stocks in Red Cross Shoes at prices starting at \$7.00 and not exceeding \$12.00. We had full faith in Red Cross Shoes at those prices because they embodied all practical style, comfort, wear and value considerations.
