### Dual Monarchy Indicted

"The world knows the history of our struggle against Hapsburg oppression intensified and systematized by the Austro-Hungarian dualistic compromise of 1867. This dualism is only a shamedess organization of brute force and ex-politation of the majority by the minority; it is a political conspiracy of the Germans and Magyars against our lown as well as the other Slav and the world knows the justice of our claims, which the Hansburgs themselves dured not deny. Francis Joseph, in the most selemn manner, repeatedly recognized the sovereign rights of our nation. The Germans and Magyars opposed this recognition, and Austria-Hungary, how-ing before the pan-Germans, became a colony of Germany, and as her vanguard to the east provoked the last Balkan well as the present world war, which was begun by the Hapsburgs slone, without the consent of the representatives of the people.
