Quality Saved by Sacrifice of Quantity

is the story of how Coca-Cola weathered the war, when the need came to make a soldier of sugar and send half of our allotment to France. We cut down our output to keep up quality at whatever cost to ourselves.

Preserving quality has been the salvation of our product and the public's safeguard against imitators that have sought to take advantage of our war-shortage.

The inimitable quality of Coca-Cola insures a waiting public when peace shall have restored us to full production.

If your suspicion is aroused by the first taste of what you are served with, put the question squarely up to the dealer.
