Banker Says Men in War Industries Are Going Back to

### Their Old Jobs

reconstruction period immedi he freenerfuction period immedi-ately ahead of us seemed yesterday to be the main topic for discussion in the financial district. One banker, the bead of one of the oldest established houses in the city, said he had no fear of any unsettled conditions that would be considered serious during the change sidered serious during the change. "It is a very hopeful sign," he said, "to find, as I have heard today, that 3000 and 4000 hands in the ster ship yards have left within the last few days, and taken up their old jobs at their old wages. Either these have been well advised by their leaders or they are displaying the sound soing on in a smaller way right before our eyes. Right across the street there a barber shop had to close up, as it could got no hands. I was told it had a. It was quite good land, so far fourteen applications this morning. I myself re-engaged a chauffeur who had feft me to work at Midvale and he says bundreds of men there are going back to their old fobs at the oid wages, so for these reasons I don't anticipate any-thing but a quite resumption of busines, on the oid lines again. Of course, it will be no serious dislocation as far as I can set." The paylod directly shead of us will be dealed for a state of the Franklin Na-tional Bank in its monthly letter says: "The paylod directly shead of us will be dealed for a provide the franklin Na-tional Bank in its monthly letter says: "The paylod directly shead of us will be here are any bight and diry—it wasn't at all promediate the franklin Na-tional Bank in its monthly letter says: "The paylod directly shead of us will be been says in the and and gry—it wasn't at all promy bit to be and the street shead of us will be been street there will be no serious dislocation as far as I can see." American workman would display under

On the same subject the Franklin Na-tional Bank in its monthly letter says: "The period directly ahead of us will probably be a period of gradually de-clining prices, gradually declining wages and a gradually declining money supply. Prices of comm Alties in many instances have gone beyoid the levels justified by conditions, wages in certain instances conditions, wages in criain instances have been advanced beyond any neces-sity created by the added cost of living and our supply of gold has been aug-mented beyond the requirements of this country through our ability to furnish needed supplies to the bulk such as supplies to the belligerent coun-nd to neutrals more than sufftries and to neutrals more than suffi-cient to offset credits created through the sale of foreign-owned American se-curities in this country plus the loans or credits advanced by us to our allies

"The transition from a peace basis to war basis was made in the face of reat and unknown difficulties while the from a war basis to a peace a will be made at a time when we not forced to direct our entire enerasis will be made at a time when we toward an unknown result, but we direct our entire energy along the of least resistance and in a calm methodical manner bring business down to a solid peace and prosperity foundation. It is perhaps unfortunate that we are not wholly ready for peace, but do was hard to believe that peace woold come so guickly."

### President's Trip Abroad

"I wonder how much the proposed trip of President Wilson to Europe has had influence on present stock market ditions," was the rather original conditions," remark of one of the best known bankers and brokers in the downtown section yesterday. There is no question my mind," he said, "that many peo ie, owners of socurities, have thought I the possibilities of accident, and its onsequences, and what might happen in a storkmarket if the possibility of successor to the President would have be considered. It would have vners of securities, have thought of the possibilities of accident, and its The pushelines of the foreign Trade
