BILL ABOUT COMPLETED

Republicans Announce Intention of Fighting Change at Meeting Friday

Washington, Nov. 28 - Revision of the var revenue bill was substantially completed last night by the Senate Finance Committee. Amendments perfecting the program of raising \$6,000,000,000 in 1919 were adopted and by a strict party vote the committee formally approved Chairman Simmons's plan to raise \$4,000,000,-000 in 1920 through reduction of individual and corporation income rates. imination of the war profits tax and

reduction of the war profits tax and reduction of the excess profits rates.

With the seven Republicans of the committee voting solidly in opposition, the ten Democrats adopted Chairman Simmons's plan for 1920 to reduce the normal income tax rate for individuals and corporations from 12 to 8 per cent. to abolish the 80 per cent war profits rate after 1919, and to reduce the excess profits rates in 1920 to a minimum of 26 per cent and a maximum of 40 per cent, or two-thirds of the 1919 rate.

profits rates in 1920 to a minimum of 26 per cent and a maximum of 40 per cent, or two-thirds of the 1919 rate.

Collector Fears Confusion

Although the committee now virtually has completed the bill, it has become known that the Internal Revenue Bureau has almost despaired of the enactment of the measure before January 1, and has made full plans for collection of taxes under the old law, by which it is estimated only \$4,000,000,000 would be produced next, year. The old law, which remains effective until repealed by the new revenue bill, specifically enjoins the Commissioner of Internal Revenue to prepare forms for use of taxpayers to report their incomes, profits and other taxable matters between January 1 and March 1.

Paniel C. Roper, Revenue Commissioner Com

sioner. also explained he would be forced to administer excise. floor, business, transportation and other taxes collectable monthly under the old law after January 1, if the new measure is not finally enacted by then. The collection of additional sums, resulting from increased rates under the new act, or repayment of taxes collected will fit any size wrist. Daniel C. Roper, Revenue Commis act, or repayment of taxes collected under schedules repealed by the new act, then would precipitate much confusion, it was explained.

Republicans to Fight

Both the programs for 1919 and 1920 laxation, except for minor atnesdments to be made when the committee reconvenes next Friday, virtually were completed. After Friday's meeting a reprint of the bill will be made and Chairman Simmons plans to report it to the Senate some time next week. The Republicans announced their intention of 1990 rates. tion to oppose inclusion of 1920 rates in the bill and may file a minority re-

McAdoo does not approve the 1920 prome in its entirety, as he desired gram in its entirety, as he desired higher normal rates to continue on both individual and corporation incomes and also or oses continuation of the excess-profits taxation plan,

Among less important decisions of the committee yesterday were rejection of proposals by Senator Smoot to impose a per cent tax on gross retail sales and to exempt corporations with less than \$1,000,000 capital from excess-profits taxes. The committee also considered requests to abolish the floor or stock taxes on tobacco, but decided finally then their retention. on tobacco, but decided finally their retention.
