LAUDS LIBERTY DIVISION

Glorious Assault of Formidable Montfaucon Most Romantic Battle of War

By a Staff Correspondent New York, Dec. 20 .- "Your gallant Pennsylvanians in the Seventy-ninth Division covered themselves with glory in the hellish Argonne. They fought like tigers and won, but they won't be home for a long, long time.

"In six months from now you can begin your reception plans, but it may be a full year before any considerable number of those brave lads tramp down Broad street."

That statement was made this afternoon by Lieutenant Colonel E. H. Tarburton, of the 314th Infantry, one of the units in the famous National Army division that trained at Camp Meade. The lieutenant colonel was one of 3563

soldiers who arrived today on the Fascinated by Service, He Will Mauretania, but in all that galaxy of war heroes he was the only representative of the Seventy-ninth, or, as it is popularly styled, the Liberty Division.

in Armistice, Says Erzberger

Berlin, Dec. 30.-(By A. P.)-The question of indemnities has been settled between Germany and the United States and the Allies, and the German delegates signed the armistice on condition that there should be restrictions to indemnities, according to Mathias Erzberger, speaking here today.

War damages and war costs, he said, must be borne by each nation itself, unless expressly mentioned in the notes that were exchanged Germany being obliged to indem nify districts she occupied in France and Belgium and to pay all losses inflicted on the civilian popu-

The armistice stipulated that Germany should make reparation for damage done to civilian population in France and Belgium. # President's Manchester Speech Declares U. S. Partner of Europe

By the Associated Press Manchester, Dec. 30.- The text of the President's address to the Free Trade Hall audience is as follows:

corded me, and back of it I know

there lies the same sort of feeling

There is a feeling of cordiality fraternity and friendship between between us. I have been led to some very serious thoughts as to what

the basis of it all is. For I think you will agree with me that friendship is not a mere sentiment. Patriotism is not a mere sentiment. It is based upon a prin ciple, upon the principle that leads a man to give more than he de Similarly, friendship is based not merely upon affection, but upon common service. The man is not your friend who is not willing serve you, and you are not his friend unless you are willing to serve him. And out of that impulse of common interest and desire of common service arises that noble

It is a fine correlation of the influence of duty that right is the equipoise and balance of society. And so, when we analyze the pres-

ent situation and the future that

we now have to mold and control

it seems to me there is no other

I want to say very frankly to you that she is not now interested in European politics, but she is interested in the partnership of right between America and Europe. If the future had nothing for us but a new attempt to keep the world at a right poise by a balance of power, the United States would take no interest, because she will join no combination of power which is not a combina tion of all of us. She is not interested merely in the peace of Europe

but in the peace of the world. Therefore it seems to me that in the settlement which is just ahead of us, something more delicate and difficult than was ever attempted before has to be accomplished-a genuine concert of mind and of pur

Task Made Easy by World Spirit But, while it is difficult, there is

an element present that makes it easy. Never before in the history of the world, I believe, has there been such a keen international consclousness as there is now. There is a great voice of humanity abroad in the world just now which

he who cannot hear is deaf. There is a great compulsion of the common conscience now in existence which if any statesman resist will gain for him the most unenviable eminence in history. We are not obeying the mandate of parties or of politics. We are obeying the mandate of humanity

That is the reason why it seems to me that the things that are most often in our minds are the least sig nificant. I am not hopeful that the individual items of the settlement which we are about to attempt will be altogether satisfactory. One has only to apply his mind to any one of the questions of

boundary and of sitered sovereignty and of racial aspirations to do something more than conjecture that there is no man and no body of men who know just how they ought to be seitled; and yet if we are to make unsatisfactory settlements we must see to it that they are rendered more and more satisfactory by the subsequent adjustments which are made possible. We must provide the machinery for readjustments in order that we have the machinery of good will and friendship.

Triendship must have a machin ery. If I cannot correspond with you, if I cannot learn your minds. if I cannot co-operate with you. I cannot be your friend; and if the world is to remain a body of friends. it must have the means of friendship, the means of constant friendly intercourse, the means for constant watchfulness over the common in-

By the Associated Press Manchester, Dec. 30 .- President Wilson told a great audience in Free Trade Hall here today that the United States never would join any con tion of nations which was not a com-

bination of them all. His declaration produced a great demonstration. Almost every sentence the President uttered in his speech was received with applause and cries of "hear, hear," and it was plain that this British audience regarded the speech as a

most important one. The whole tone of the President's ddress was interpreted in American quarters as an additional indication that his conferences of last week with Premier Lloyd George and Foreign Secretary Balfour had revealed the United States and Great Britain on a quite common ground, from which the peace negotiations could proceed with

#### the two nations standing together on the fundamentals.

Many Details Arranged The speech also was taken as an udication that much of the important details of the Peace Conference had

been arranged. To American eyes, the scene of the Free Trade Hall was comparable to that of a session of a political national convention. The introductory speeches troubles may be taken when they were received much as are the nominating speeches for the favorite candidate at such a convention, and when I never thought I had a big differ.
