# Duo-Art Pianola-Piano

(C. J. Heppe & Son, Philadelphia Representatives)

This-the latest Aeolian creation-is the greatest musical instrument in the world.

Can you imagine a piano so built that Harold Bauer-or any artist-can sit down and play it and then leave the piano and listen to it as it repeats his previous effort?

The Duo-Art is such an instrument!

It records as the artist plays, and then reproduces every note exactly with most accurate expression. It does this in your home.

It is also a perfect player-piano-you yourself can play any standard roll most expressively without pumping.

As to its merit as a piano-one need only mention the pianos in which the Duo-Art is built-the Steinway, Weber, Steck and Stroud -all on sale at Heppe's.

Call at Heppe's and hear your favorite pianist play any standard composition. Illustrated catalogues will be sent if you desire.

> Made in Steinway, Weber, Steck and Stroud Pianos Price \$975 up
