QUICK breads include griddle cakes, waffles, muffins, Sally Lunns, shortcakes and biscuits, These doughs are made light or leavened by the use of eggs, baking soda, baking powder, steam created in baking and by air beaten into the mixture. Their entire success depends upon the careful measurement of ingredients, the mixing and the baking. Sift all flour once before measuring and then fill the measuring cup with a tablespoon, piling it high; then level it, using the back of a kitchen knife.

What do you say to this, Helen H. T.

When you say "keeping company," sailer friend, do you mean being engaged? If you do then we heartily agree that that rort of "keeping company" reforms many a man and brings great happiness. But "keeping company" so often means an endless going together of young people with no definite decision on the marriage question. This really doesn't bring happiness. H. D. ONE half of the world does not know what the other half does. Every day thousands of mothers in this city are up in the cold and at the business of starting the day right at 6:39 or 7 a. m. It is not that the woman who reaches out quickly to shut off the alarm before it wakes any one else likes to get up in the cold.
