WILSON'S ATTITUDE SURPRISES ITALIANS

London, Jan. 15.—(By A. P.)—In commenting upon the conference between Premier Orlando, of Italy, and President Wilson last Friday persons in touch with the Italian mission declare that the Premier was surprised at Mr. Wilson's attitude, says the Paris correspondent of the Daily Mail.

POWERS WILL SHARE COST OF RELIEF WORK

London, Jan. 15.—(By A. P.)—An official statement has been issued here relative to the meeting of the supreme council of supply and relief held at the office of commerce in Paris on Monday.

Failure Means European Ruin

All the countries which have set up democratic governments are struggling to maintain order and to establish themselves permanently. Any failure on the part of the United States to support these issues, the members of the commission are said to believe, will bring ruin in Europe beyond anything since the Middle Ages.

Wilson May Visit England

President Wilson may visit England on his way back to the United States next month, but it will not be to confer with statement there. He has hoped to be able to sail from a British port, probably Queenstown, and have an opportunity to inspect the base of the American fleet, which did such remarkable work in the anti-submarine warfare.

Hoover Plans Commission

Herbert C. Hoover, director general of international relief, has proposed that a commission representing each of the four great Powers be established in each of the countries to be relieved under the general term of "relief to liberated countries."
