FOR RAILROADS

Director Hines Is Ready With New Budget for Congress

CONTINUED CONTROL

New "Loan" to Carriers Would Make Total of Billion Dollars

Washington, Jan. 16.—The railroad administration, Director General Walker D. Hines announces, is preparing to ask Congress for another revolving fund of \$500,000,000, to be used in financing the program of railroad improvements and betterments planned by the Gov-

This program, already begun, calls for a total of authorized capital expendi a total of authorized capital expendi-tures, which must be provided for for the years of 1918 and 1919, of \$1.527. 000,000, and the director general esti-mates that the minimum additional hudgets for 1919 must be \$250,000,000. In discussing his intention to request a new fund, which would bring the total appropriated by Congress to the full-read administration to \$1.000,000,000.

road administration to \$1,000,000,000, the director general made it clear that the money would be expended solely for tallroad improvements and new equip frient and would be repaid by the railroads with interest. In the main, it amounts, Mr. Hines explained, to a loan

to the railroad companies at the prevailing interest rates of 6 per cent.
"It should be plainly understood." he added, "that none of this fund is to be used by the railroad administration to pay the deficit of nearly \$100,000,000 incurred by the war emergency operation of the railroads in 1918. of the ra broads in 1918.

"The making of the appropriation does not mean that the Government loses the Although nothing relating to the char-

acter of future control of the railroads, now being considered in Congress, uppeared in the statement authorized by

HANDLESS BOY HELD AS THIEF

Telephone Officials Link Him With Others in Wire Stealing

Uniontown, Pa., Jan. 16 .- Three Unio been arrested on information pade before Alderman Darby by officials of the Bell Telephone Company, who allege that the trio interrupted telephone com-

that the trie interrupted backnows com-munication by cutting wire from the poles along the National pike, near Uniontown and sold a part of it to funk dealers.

The boys are William Holland, Joseph Carter and Charles Green. The Green boy, who sells papers on the streets, lost both hands several years ago, when he came in contact with a high-voltage electric wire. Each of them is about twelve years old.

ARMOUR DEFENDS PRICES

Sees Little Prospect of Drop in Meat Quotations

Chicago, Jan. 16.—While the extraor-dinary denand from Europe continues there is little prospect of lower meat prices, J. Ogden Armon's yearly report to stockholders said today. Armour & Co. paid \$100,000,000 more for the same number of pounds in 1918 than in 1917.

ASK HALF BILLION AVIATOR'S SISTER HELPED WIN WAR

Miss Marguerite Pendleton Drew, sister of Licutenant Drew, the aviator here, broke production records in one branch of the powder-making plant at Carney's Point the day her brother shot down his first German plane. She left Swarthmore College to go into munitions work, after having been inspired by her brother's unusual bravery

DREW, MAIMED AIR FIGHTER, WEEPS AS HE GREETS SISTER

Mr. Hines, his argument for an additional appropriation is taken to mean that the railroad administration contemplates continued Government operations. Lieutenant, With One Arm Gone and Service Cross on Breast, Meets Girl Whom He Inspired to Work in Powder Plant

In some sources also the action was taken as indication of definite abandominent by the Government of former Director General Modoo's 'Threat' to turn the reads back to private operation immediately, if Courgess did not provide for extension of Federal control for five years.

ITALIANS HERE PROTEST

Oppose Immigration Restriction

Before House Committee

Italians of this city have protested against restrictions being placed on immigration finto the United States. C. C. A. Baild, Joseph P. Bartilucel and Gilbert L. Jones appeared before the House Committee on immigration restrictions, and formally made the protest of Philladelphians of Italians birth,

They declared that although there is little likelihood of any large immigration from Italy the Italians-Americans believe any legislation restrictions of Italians would be an abandonment of bolicies on which the United States developed.

Come Ride in the Essex

Its First Showing - A Light Weight Quality Car

We Want Your Opinion of It

All motordom has waited a year for the Essex.

Dealers have ventured all sorts of descriptions for it. But today it is having its premier showing in hundreds of cities and towns throughout America.

For months the trade papers have given first prominence to whatever news they could get of its details.

Their interest was awakened because it combines the advantages of the light low priced car, and its economy, with the performance, sturdiness and beauty of the large and costly car. One leading writer proclaimed the Essex a new development in motor car transportation.

Don't you want to be among the first in this locality to see the car that has awakened this interest? We wish you would come and ride in it for

You Are To Do Its Advertising

We have long wanted to reveal the details of the Essex. But the manufacturers said they wanted the car to speak for itself. They said no description that could be applied to it would create as favorable an impression as would result from a ride in the car.

Even now we hesitate to praise the Essex since we can say nothing that has not already been claimed in praise for some other car.

So the endorsement it is to receive is such as you and other thousands of motorists volunteer to give. All we ask is that you come see and ride in it.

We Were Surprised-Let Us Surprise You

When we went to the factory to see the Essex we wanted to know in advance something of its detail. But we were told that was for us to discover as we inspected and rode in the car.

Perhaps we would have been skeptical and have concluded there was nothing unusual about the Essex if we had not known the men who are building it. But knowing them as we do and knowing the quality of cars they build, our faith and curiosity were aroused.

What a Ride Proved to Us

Our first experience was a ride over a road so rough that you would willingly go miles out of the way to avoid if you were in the average light car.

We took it at high speed, but the effect in both the front and rear seats was more in keeping with what you might expect in riding over a smooth pavement.

Then we drove into soft sand where the wheels sunk in below the felloes, going through as though it were thin mud.

Every test that reveals performance was shown us. There were no squeaks. The motor did not labor. The car had been in similar service for months and still retained its appearance of newness. These are things we want to show you. A demonstration like that which surprised us is ready for you if you will come to our store.

The Essex is Built To Endure

Every part that wears is adjustable. Hard service can not loosen the body nor twist the radiator. It is so sturdily built that the frame remains solid and rigid over the roughest roads and through the hardest service. The motor is practically free from vibration. If you were

blindfolded and placed in the Essex without having seen it and then were given such a ride as wewant you to take with us, you would likely say you were in a large and costly car.

After you have ridden in the Essex we will tell you all about it.

Then, we think you will be so enthusiastic you will tell everyone you know that you have ridden in the most surprising car you have ever seen.
