Department of Justice and Internal Revenue Bureau Getting Ready

"BOOTLEGGING" FIRST Illicit Manufacture Expected After Supply on Hand Disappears

By the Associated Press Washington, Jan. 22.—Means of enforcing prohibition after July 1 are under consideration by officials of the Department of Justice and the Internal Revenue Bureau...

This bureau now has about 500 agents who could be needed in liquor violation cases including 300 now engaged partially in running down illicit liquor distillers...

Even with an augmented government force devoting its entire efforts to preventing manufacture and sale of liquor, however, officials declare the enforcement work would favorably respond to local police authorities...

Officials say the fact that the prohibition measure is a Federal act might be interpreted in some states as a referendum on prohibition...

Those officials who have given special study to prospective problems growing out of prohibition, anticipate that in the early part of the prohibition period the selling of liquor made before prohibition became effective...

The advent of prohibition, officials say, will not repeat previous laws applying taxes on spirits, nor nullify existing provisions for fine and imprisonment as penalties for illicitly manufacturing liquor.
