You might possibly be able to remove the coffee stain with potassium permanganate, but it would be a very difficult thing to do, and you would have to try it very carefully first on a part of the velvet that does not show in order to make sure that it does not change the color. It is very apt to. In any case it would be almost impossible to make the nap of the velvet so soft again that the spot would not show. It would be much more profitable to you to send the dress to a cleaner's, where the spot can be removed without leaving any traces of where it has been. the coffee stain with potassium per-

Duck Population

According to the census of 1910, there were 2,906,525 ducks in the United States, valued at \$1,587,164, showing a decrease in number of nearly 40 per cent as compared with 1900. Ducks were reported on only 7.9 per cent of the farms in the country, and are most numerous in the following States, arranged according to their production: lows, Illinois, New York Pennsylvania, Missouri, Tennessee, Indiana, Kansas, Okiahoma, Arkansas and Ohio, the number ranging from about 225,000 head in lowa to 108,000 in Ohio.

TET me tell you about some novel and artistic curtain holders. You know the dainty white-enameled baskets with delicately colored flowers which make such inviting door knockers? Well, these curtain holders are just like those backets. They screw into the wall or the window frame, and you catch your curtain back over them. Particularly would they make a nice gift. They are \$1.50 each.

"There," you cry in vexation, "Twe only worn those silk stockings once before, and look at the run!" Yes, garters will play havoc with one's stockings. But did you know that you could get stocking protectors? They look for all the world like the fasteners which hold the folds of an umbrella together when it is fastened. It is a kind of tab which you sew to your stocking top, and then the garter fits and fastens into a steel eyelet. These tabs are ten cents a pair, and I believe they would prove a wonderful saving for your stockings. I'm going to try one pair, anyhow.

Listen to an earring tale. Here in this collection you will find drop earrings of jade. Here also you will find a topax pair, first a pearl, then a slender chain, then a well-cut small ball of clear limpid yellow. And here, too, you will find an earring consisting of a little colored fan resting against the lobe of the ear depending from which is a fine chain, attached to which is a cool little ball of jade. You won't hesitate long before you select a pair, particularly when fore you select a pair, particularly when you know that the price of your choice will be but fifty cents.
