REFRESHMENTS FOR VALENTINE FESTIVITIES—BRINGING UP A BOY—GIRLS' PROBLEMS—LETTERS

MENUS FOR VALENTINE PARTY AND RECIPES BY MRS. WILSON

Some Refreshments That Call Dan Cupid to Mind. Lovers' Knots and Little Heart-Shape Sandwiches

Cupid Gelatin and Other February 14 Dainties Tempting, Inexpensive and Easy to Prepare

CAINT VALENTINE'S DAY is especially dedicated to the little blind god of love-Cupid. Tradition tells us that the birds seek their mates on the 14th day of February; so perhaps this is responsible for the very important part Dan Cupid plays on this day.

Meaning of Stamp

Dear Cynthia-Would you be kind ough to tell the meaning of a stamp put on a letter upside down? Is it proper for the girl or the boy to end a telephonic conversation

VOGUE. In the stamp language the meaning is supposed to be "You are very cruel." This if the stamp is on the right-hand corner. As few people know the stamp language it probably means nothing but carelessness in putting the stamp on the envelope.

It is more polite for the boy to let the girl end the conversation, provided she does not talk too long.

Approves of Cynthia

Dear Cynthia-I have read your column for sometime, and it has proved very interesting reading. I merely wish to indorse your sentiments regard-ing "Anonymous." It is very good advice, and I think that adding a good heavy game of football, he will soon learn to enjoy life as boys should. Will write you again, DAN B.

Thank you for the letter Dan. I hope Anonymous is working hard at sports of some kind these fine cold days.

Then use a fine-tooth comb and do this religiously every day, until no sign of the trouble remains. This will not affect the color of your hair. You must not delay about this matter, as you will have no hair left if you neglect it. If your hair still continues to fall out after it is rid of the trouble, buy a reliable hair tonic and use it carefully every night until it ceases to fall.

Is She Too Tall?

Is She Too Tall?

Dear Cynthia—I am a girl fifteen years of age. I go to high school and Cynthia. I find that while I can carry on conversation easily with any of my boy class mates, I cannot with the majority of the girls. Most of them are around my own age, but, Cynthia, could it be because I am so tall? I am five foot nine inches and seem to tower above them. It seems that they try to avoid me. Do you think it a fancy? I have known them, or rather the majority of them, all my life. I have one or two close "chuma" and am not "bad-looking." I try to please them, but it seems impossible. I like the rest of them, like to play basketball, etc.

Put this idea out of your mind, he jolly and friendly, and you will soon see that it will be all right. Are you careful to keep confidences? And do you refrain from making fun of the girls? These two faults are often the cause of trouble. So watch that you have neither.

Do Something for Others

Dear Cynthia-I wish you could help ie, for I am living under very strenuous Dear Cynthia—I wish you could help me, for I am living under very strenous conditions. I took sick about four months ago for the first time, and it was really more shock than anything else. Even when I was feeling better, I was afraid to go back to work, thinking I would get more hold of myself. But it even made me worse, for all kinds of morbid thoughts entered my mind, and it seemed that I was too weak to drive them away. So I used to almost worry myself sick, and ever since then I have instilled such fear into myself that even if I do try to think of pleasant things a shadow of fear prevents me from continuing, and I seem to have to stop and just worry. I try so hard to forget by reading and going to the moving pictures, and if I see or read anything unpleasant, which one is likely to come across. I'm just full of fear. I do not seem to be free and most of the time prefer sitting all alone so I won't have to tackle the things we come across. I want to change so much, for I am really miserable. I am nineteen years old and have had a good education and have held very good positions, and it seems that I can't set my mind down to anything without those troublesome thoughts.

You are suffering from the effects of your illnoss. Do you eat well and take sensible walks in the fresh air? Are you taking any tonic? It would be well to see your doctor and to obey his orders. Then work on your mind and will, for that is the principal trouble. When one is weak and nervous after an illness, one can only cure oneself by determining not to think of the morbid things nor to be afraid about things. Do something for some one else, that's the best remedy in the world. If you are a man, get into the Big Brother work, if a girl, so into Red Cross. Linen Hints

Fold tablecloths differently from time to time and you will prevent the form-ing of worn lines in the creases.

Linen in everyday use should not be tept on the table until it becomes no iceably solled, for the simple reason that t takes harder rubbing to cleanse it.

Never put away cotton or linen clothes with starch in them; they will not last nearly as long.

To the Editor of Woman's Page:

Dear Madam—Here are my troubles! I use a lift powder and facial cream. Why? Because my nose and forehead and even my face and cheeks are shiny. I am told, as shiny as a new tin pan. Isn't that dreadful to be told? What will I do? My skin is scaly and so oily. Oh, it is dreadful! And really powder won't stay on. I have also some complexion troubles. I use a soap and I was told to use cold water. I did it, but it did no good.

I am popular enough, but my akin! Work.

you print my letter and see if you can't help me, please?

It is not dreadful to have shiny skin, and it is surely not dreadful to use a little powder and a bit of cream to take off the shine. When the skin is scaly and oily as well it is a little hard to treat, for the remedy for the oiliness is apt to make it scaly. The best thing is to decide to keep yourself in top-notch health and your complexion will soon improve. Be careful of your diet, eating plenty of reens and little sweets and pastries. Drink lots of water and take plenty of exercise. The soap you mention is good, but you should use warm water with it, as the cold does not help to penetrate the pores and thus cleanse them. In using the soap follow the directions on the wrapper. Be faithful to this treatment. Applying cucumber jelly to your face will help to heal the scaliness. Apply every night after you have washed it. Rub a little bit of greaseless cream on before you apply powder to make it stick. Be careful not to make your face look pasty though.

Adventures With a Purse

ARE you going to give a valentine Aparty, or have a club meeting at your home some time around St. Valentine's Day? If so, of course, you'll want red hearts to be your table decorations. And against the snowy whiteness of the tablecloth they look uncommonly nice. You can purchase them in various sizes—forty in a box for five cents. And if you wanted to, you could string them together with red ribbon.

I saw them today and passed them by. "What good could extra stocking feet do a body!" I sniffed disdainfuily. Then I began to figure the matter out. If a child were very hard on its stocking feet, but left the uppers intact; if a man's favorite "wearing place" were the heels of his socks; or, if some one else suffered from feet that are extremely sensitive to cold, what could be better than an extra pair of stocking feet for protection of one sort or another? They are black, come in all sizes and cost but ten cents a pair.

Soap is one of my extravagances. I love good soap, if I do say it myself, as shouldn't. And the soap I found today is a brand-new kind to me. It is sold by a famous importer of Chinese and Japanese ware, and its scent combines the mystery of the Orient with the sweet fragrance of the violet. I know you'll like it, even if you only buy one cake—which costs twenty-five casts—and save it for Sundays;

Woolen Boudoir Caps Have you seen the novel crocheted boudoir caps? They are crocheted in white wool, with trimmings in the way of scalloped edges in pink, violet or blue wool. And, of course, there are ribbon bows of the same color. These little caps are made most attractively, and are as dainty almost as a combination of net and chiffon.

They are really an admirable idea for some of the cold days of winter and any one who wishes to protect the head at night against the cold air on a sleeping porch, or from a nearby wide-open window, might wear one of these as a nighteap.
